day of ..... , 189 }

West boundary of T.2 S., R.5 W.

Survey commenced October 11, 1903, and executed with a W. and L.E. Gurley light mountain transit, No. 1, with solar attachment. The horizontal limb is provided with two double verniers, placed opposite to each other, reading to single minutes of arc; which is the least count of the latitude and declination arcs. The instrument was examined, tested on the true meridian at Salt Lake City, found correct, and was approved by the surveyor general for Utah on August 10, 1903.

I examine the adjustments of the instrument; then, to test the solar apparatus by comparing its indications resulting from solar observations made during p.m. and a.m. hours, with a meridian, established by observation on Polaris, I proceed as follows:

At the cor. of Tps. 2 and 3 S., R.5 and 6 W., latitude  $40^{\circ}15'54''N.$ , longitude  $110^{\circ}32'07''W.$ , I set off  $40^{\circ}16'N.$ , on the lat. arc;  $6^{\circ}48'S.$ , on the decl. arc; and at 3 h 2 m p.m., l.m.t., determine a meridian, with the solar, and mark a point thereof on a stone, firmly set in the ground, 5.00 chs. N. of the cor. At 6 h 12 m p.m., l. m.t., I observe the Polaris at eastern elongation, in accordance with the Manual, and mark a point in the line thus determined, on a peg driven in the ground, 5.00 chs. N. of the cor.

October 11, 1903.

---

October 12, 1903: At 7 h 30 m a.m., l.m.t., I lay off the azimuth of Polaris  $1^{\circ}34.8'$  to the west, and mark the meridian thus determined, by cutting a small groove in the stone already set 5.00 chs. N. of the cor.; this mark falls 0.27 ins. east of the mark established

Last boundary of U.S. G. & G. Compt.

Starting with the color.

At 8 h 2 m a.m., I set off  $40^{\circ}10'N$ , on the merid. arc;  $17^{\circ}2'$  E., on the decl. arc; and mark the meridian determined with the color, by a cross on the stone already set 5.00 sec. S. of the cor.; this mark falls 0.20 in. east of the meridian established by Polaris observation.

The color apparatus by p.m. and a.m. observations defines positions for true meridians respectively about  $6^{\circ}14'$  west and  $6^{\circ}15'$  east of the meridian established by Polaris observation; therefore I conclude that the adjustments of the instrument are satisfactory.

The magnetic bearing of the meridian at 8 h 2 m a.m. is  $5.10^{\circ}34'E$ ., the angle thus determined, given the cap. decl.  $16^{\circ}34'E$ .

---

North, bot. neck. 31 and 36, from the cor. of tps. 2 and 3 S., N.E. and S.E., heretofore described.

Over mountainous land; through scattering timber and scattering undergrowth.

Acre 3.

33. - Top of ridge, 300 ft. above cor., bears N.E. and S.W.  
Forest.

44. - Set a poststone, 16x12x10 ins., 12 ins. in the ground, for cor. of sec., marked 1 on S. face; from which

- a pine pine, 10 ins. diam., bears  $E.30^{\circ}E.$ , 12 ins. dist., marked 1 S. 31 S. T.

- a pine pine, 10 ins. diam., bears W.,  $30^{\circ}30'N$ , dist., marked 1 S. 31 S. T.

Later heavy timber, bears E. and W.

45. - Set a poststone, 16x12x10 ins., 12 ins. in the ground, for cor. of sec. 24, 24, 23, and 36, marked with 1 notch on E. and 2 notches on S. end on; from which

Chains            A pinon pine, 8 ins. diam., bears N. 40° E., 40 lks. dist., marked T 2 S R 5 W S 30 B T.

                  A pinon pine, 10 ins. diam., bears S. 60° E., 12 lks. dist., marked T 2 S R 5 W S 31 B T.

                  A pinon pine, 8 ins. diam., bears S. 45° W., 65 lks. dist., marked T 2 S R 6 W S 36 B T.

                  A pinon pine, 8 ins. diam., bears N. 50° W., 55 lks. dist., marked T 2 S R 6 W S 25 B T.

This cor. is 600 ft. below ridge.

Land, mountainous.

Soil, gravelly; 3rd rate.

Timber, cedar and pinon pine.

Undergrowth, sage brush.

Good grass for grazing.

Mountainous or heavily timbered land, 80.00 chs.

*See Corne  
Notes Ch. 7*

---

North, bet. secs. 25 and 30.

Over mountainous land; through heavy timber and scattering sage brush.

Descend.

18.75 Bottom of hollow, 200 ft. below sec. cor., course NE.

Ascend.

28.75 Top of spur, 20 ft. above hollow, bears NE and SW.

Descend.

30.75 Bottom of canon, 50 ft. below spur, course E.

Ascend abruptly over a series of ledges and boulders

40.00 Set a sandstone, 16x12x12 ins., 11 ins. in the ground, for  $\frac{1}{4}$  sec. cor., marked  $\frac{1}{4}$  on W. face; from which

                  A pinon pine, 8 ins. diam., bears S. 50° W., 30 lks. dist., marked  $\frac{1}{4}$  S 25 B T.

No other trees within limits; and raise a mound of stone, 2 ft. base,  $1\frac{1}{2}$  ft. high, W. of cor.

54.00 Top of spur, 500 ft. above canon, bears N. 60° W. and S.

*See  
get back  
page 1*

West boundary of T. 2 S. R. 5 W.-Continued.

Chains	60° E. Descend abruptly over ledges .
65.00	Bottom of hollow, 200 ft. below spur, course S. 60° E. Ascend abruptly over ledges.
75.00	Top of ridge, 300 ft. above hollow, bears E. and W. Descend abruptly over a series of ledges, from 5 to 20 ft. high .
80.00	Set a sandstone, 16x14x8 ins., 11 ins. in the ground, for cor. of secs. 19, 24, 25, and 30, marked with 4 notches on N. and 2 notches on S. edges; from which A pinon pine, 12 ins. diam., bears N. 51° E., 54 lks. dist., marked T 2 S R 5 W S 19 B T. A pinon pine, 6 ins. diam., bears S. 51° E., 58 lks. dist., marked T 2 S R 5 W S 30 B T. A pinon pine, 5 ins. diam., bears S. 69° W., 26 lks. dist., marked T 2 S R 6 W S 25 B T. A pinon pine, 8 ins. diam., bears N. 6° W., 33 lks. dist., marked T 2 S R 6 W S 24 B T. Land, mountainous , very rough . Soil, gravelly and rocky; 3rd and 4th rate. Timber, cedar and pinon pine. Undergrowth sage brush. Good grass for grazing. Mountainous or heavily timbered land, 80.00 chs.
	North, bet. secs. 19 and 24. Over mountainous land; through heavy timber. Descend abruptly over a series of ledges and boulders.
32.70	Foot of descent, 700 ft. below sec. cor., bears E. and W. Leave timber, bears E. and W. Right bank of DuChesne River, 1½ ft. deep, sandy bottom, rapid current, course E. Thence along stream .

" d v f T 2 S R 5 W -Continued

- 40.00 Point for  $\frac{1}{4}$  sec.cor. falls is river.
- 40.30 Right bank of DuChesne River, course S. Enter dense willows, bears NE and SW. This small strip of land is subject to overflow, cor. cannot be perpetuated.
- 42.15 Right bank of DuChesne River, 3 ft. deep, course E.
- 43.35 Left bank of DuChesne River, sandy bottom, moderate current, 3 ft. deep, course E.
- 43.85 Nearest safe ground for  $\frac{1}{4}$  sec.cor.. Set a sandstone, 18x9x6 ins., 12 ins. in the ground, for witness cor. to  $\frac{1}{4}$  sec.cor., marked W.C. $\frac{1}{4}$  on W. face; and raise a mound of stone, 2 ft. base,  $1\frac{1}{2}$  ft. high W. of cor.
- 54.35 Leave willows and enter cultivated land, owned by an Indian, bears NW and SE.
- 61.20 Pole fence, bears NW and SE. Leave cultivated land and enter dense sage brush, bears with fence.
- 63.40 Heber-Vernal road, bears NW and SE.
- 66.00 Leave canon bottom, bears NW and SE. Enter heavy timber, bears NW and SE. Ascend.
- 77.50 Top of ascent, 400 ft. above canon bottom, bears NW and SE. Thence over rolling mesa.
- 80.00 Set a hard cobble stone, 16x10x8 ins., 11 ins. in the ground, for cor. of secs. 13, 18, 19, and 24, marked with 3 notches on N. and 3 notches on S. edges; from which A cedar, 10 ins. diam., bears N.  $47^{\circ}$  E., 89 lks. dist., marked T 2 S R 5 W S 18 B T. A pinon pine, 20 ins. diam., bears S.  $45^{\circ}$  E., 10 lks. dist., marked T 2 S R 5 W S 19 B T. A pinon pine, 12 ins. diam., bears S.  $40^{\circ}$  W., 40 lks. dist., marked T 2 S R 6 W S 24 B T. A pinon pine, 15 ins. diam., bears N.  $10^{\circ}$  W., 125 lks. dist., marked T 2 S R 6 W S 13 B T.

See corner  
old book  
page 3

West. boundary of T 2 S R 5 W -Continued

Chains	Land, mountainous and level. canon bottom.
	Soil, sandy loam in canon bottom and rocky on side hill; 2nd and 4th rate.
	Timber, cedar and pinon pine.
	Undergrowth, willows.
	Good grass for grazing.
	Mountainous or heavily timbered land, or land covered with dense undergrowth, 80.00 chs.
	October 12, 1903: At this cor. I set off $7^{\circ} 9' S.$ , on the decl. arc; and at 0 h 1 m p.m., l.m.t., I observe the sun on the meridian, the resulting lat. is $40^{\circ} 18' N.$ , which is the proper lat. nearly.
	I
	North, bet. secs. 13 and 18.
	Over rolling mesa; through heavy timber.
40.00	Set a sandstone, 16x12x6 ins., 11 ins. in the ground, for cor. of sec. 13, marked $\frac{1}{4}$ on W. face; from which
	A pinon pine, 16 ins. diam., bears N. $45^{\circ}$ E., 73 lks. dist., marked $\frac{1}{4}$ S 18 B T.
	A cedar, 6 ins. diam., bears S. $86^{\circ}$ W., 35 lks. dist., marked $\frac{1}{4}$ S 13 B T.
	Leave mesa, bears NW and SE.
	Descend.
80.00	Set a sandstone, 20x12x6 ins., 15 ins. in the ground, for cor. of secs. 7, 12, 13, and 18, marked with 2 notches on N. and 4 notches on S. edges; from which
	A pinon pine, 10 ins. diam., bears N. $41^{\circ}$ E., 110 lks. dist., marked T 2 S R 5 W S 7 B T.
	A pinon pine, 10 ins. diam., bears S. $60^{\circ}$ $30'$ E. 91 lks. dist., marked T 2 S R 5 W S 19 B T.
	A pinon pine, 8 ins. diam., bears S. $80^{\circ}$ W., 53 lks. dist., marked T 2 S R 6 W S 13 B T.
	A pinon pine, 11 ins. diam., bears N. $35^{\circ}$ W., 101 lks. dist., marked T 2 S R 6 W S 12 B T.
	<i>concluded to Clark page 5</i>

st boundary of T. 2 S., R. 5 W. -Continued

Chains Land, mountainous and rolling mesa.

Timber, cedar and pinon pine.

Soil, sandy and gravelly; 2nd and 3rd rate.

Good grass for grazing.

Mountainous or heavily timbered land, 80.00 chs.

North, bet. secs. 7 and 12.

Over mountainous land; through heavy timber.

Descend .

4.50 Foot of descent, 75 ft. below sec.cor., bears N.60°W.  
and S.60°E.

Enter bottom of Rock Creek Canon .

Leave timber and enter dense greasewood, bears N.60°  
W. and S.60°E.

13.25 Old road, bears N.45°W. and S.45°E.

14:00 Leave greasewoods and enter willows and bull berry  
brush, bears E. and W.

16.05 Right bank of Rock Creek, rocky bottom, rapid current,  
1½ ft. deep, course SE.

17.15 Left bank of Rock Creek.

25.0 Leave canon bottom, bears NW and SE.

Leave undergrowth and enter scattering cedar and  
pine timber, bears NW and SE.

Ascend abruptly over ledges.

40.0 Set a sandstone, 16x10x6 ins., 11 ins. in the ground,  
for  $\frac{1}{4}$  sec.cor., marked  $\frac{1}{4}$  on W. face; and raise a mound  
of stone, 2 ft. base, 1½ ft. high, W. of cor.

50.2 Top of ascent, 500 ft. above canon, bears N.10°W. and S.  
10°E.

Enter heavy timber, bears N.10°W. and S.10°E.

Thence over level mesa.

80.0 Set a sandstone, 18x8x6 ins., 12 ins. in the ground,  
for cor. of secs. 1, 6, 7, and 12, marked with 1 notch

Corrective Notes of

Survey commenced April 22, 1905, and executed with a W. and L. E. Gurley light mountain transit No.-, with solar attachment. The horizontal limb is provided with two double verniers placed opposite to each other, reading to single minutes of arc; which is also the least count of the verniers of the latitude and declination arcs.

The instrument was examined, tested on the meridian at Salt Lake City, found correct, and was approved by the surveyor general for Utah, on April 1, 1905.

At the cor. of secs. 25, 30, 31, and 36, latitude  $40^{\circ} 16' 47''$  N., longitude  $110^{\circ} 32' 07''$  W., I set off  $40^{\circ} 17'$  N., on the lat. arc;  $12^{\circ} 08'$  N., on the decl. arc; and at 7 h 3 m a.m., l.m.t., I determine a meridian with the solar.

Note: For complete test of instrument see notes of Sub-division T. 3 S., R. 5 W.-

From the cor. of secs. 25, 30, 31, and 36, which is a sandstone,  $12 \times 12 \times 5$  ins., above ground, firmly set, and from which

A pinon pine, 6 ins. dia., bears  $N. 31^{\circ} E.$ , 72 lks. dist.. mkd. T 2 S R 5 W S 30 B T.

A pinon pine, 6 ins. dia., bears  $S. 81^{\circ} E.$ , 61 lks. dist.. mkd. T 2 S R 5 W S 31 B T.

A pinon pine, 14 ins. dia., bears  $S. 31^{\circ} W.$ , 24 lks. dist.. mkd. T 2 S R 6 W S 36 B T.

A cedar, 9 ins. dia., bears  $N. 31^{\circ} W.$ , 24 lks. dist.. mkd. T 2 S R 6 W S 25 B T.

Thence I run

North, bet. secs. 25 and 30.

40.15 Intersect the  $\frac{1}{2}$  sec. cor. bet. secs. 25 and 30.

I move the cor. 15 lks. S. and

t .. undar of T 2 S R 5 W

Chains Survey commenced October 13, 1903, and executed with a W. and L.E. Gurley light mountain transit, No. , with solar attachment. The horizontal limb is provided with two double verniers placed opposite to each other, reading to single minutes of arc; which is also the least count of the latitude and declination arcs.

Note: For complete test of instrument see notes of subdivision of T. 2 S., R. 5 W., Book "W".

At the cor. of Tps. 1 and 2 S., Rs. 5 and 6., W. latitude  $40^{\circ} 21' 07''$  N., longitude  $110^{\circ} 32' 07''$  W., I set off  $40^{\circ} 21' N.$ , on the lat. arc;  $7^{\circ} 27' S.$ , on the decl. arc; and at at 8 h 2 m a.m., l.m.t., I determine a meridian with the solar .

Note: On account of the closing of this township I am led to believe that discrepancies exist in the north boundary of Tp. 2 S., R. 5 W., therefore I proceed to retrace the bdy. as follows:

From the cor. of Tps. 1 and 2 S., Rs. 5 and 6 W., heretofore described I run

East, on a retracement line bet. secs. 6. and 31.

56.20 The  $\frac{1}{2}$  sec. cor. bet. secs. 6 and 31, which is a sandstone, 8x5x5 ins. above ground, firmly set and marked and witnessed as described by the surveyor general, bears North 65 lks. dist.  
To better perpetuate the cor. I mark trees as follows;

A pinon pine, 16 ins. diam., bears N.  $43^{\circ}$  E., 55 lks. dist., marked  $\frac{1}{2}$  S 31 B T.

A pinon pine, 24 ins. diam., bears S.  $40^{\circ}$  W., 13 lks. dist., marked  $\frac{1}{2}$  S 6 B T.

78.19 The cor. of secs. 5, 6, 31, and 32, which is a sandstone, 5x12x12 ins. above ground, firmly set, and marked and witnessed as described by the surveyor general, bears North 128 lks. dist.

The course of this line is therefore N.  $89^{\circ} 04' E.$ .

78.20 chs.

518

Retracement of North bdy. T. 2 S., R. 5 W. -Continued

Chains	East, on a retracement line bet. secs. 5 and 32.
39.90	The $\frac{1}{4}$ sec.cor.betsecs. 5 and 32, which is a sandstone, 8x18x9 ins. above ground, firmly set, and marked and witnessed as described by the surveyor general, bears N.63 lks.dist.
79.86	The cor.of secs.4,5,32, and 33,which is a sandstone, 5x15x7 ins.,above ground,firmlly set, and marked and witnessed as described by the surveyor general,bears North 131 lks.dist. The course of this line is therefore N.89°04'E., 79.87 chs.
40.06	East, on a retracement line bet.secs.4 and 33.
40.06	The $\frac{1}{4}$ sec.cor.,bet:secs.4 and 33,which is a sandstone, 4x9x5 ins. above ground,firmly set, and marked and witnessed as described by the surveyor general, bears N.60 lks.dist.
80.09	The cor.of secs.3,4,33, and 34,which is a sandstone, 5x10x4 ins. above ground,firmlly set, and marked and witnessed as described by the surveyor general,bears North 130 lks.dist. The course of this line is therefore N.89°04'E.,80.10 chs.
40.06	East, on a random line bet.secs.3 and 34.
40.06	The $\frac{1}{4}$ sec.cor.bet.secs.3 and 34.,which is a sandstone, 6x12x7 ins. above ground,firmly set, and marked and witnessed as described by the surveyor general, bears N.62 lks.dist.
80.06	The cor.of secs.2,3,34, and 35,which is a sandstone, 6x10x5 ins.,above ground,firmlly set, and marked and witnessed as described by the surveyor general,bears

at boundar of T 2 S R 5 W -Continued  
 Chains North, 130 lks.dist.; the course of this line is therefore N.89° 04'E. 80.07 chs.dist.

---

East, on a retracement line bet.secs.2 and 35.

40.04 The  $\frac{1}{4}$  sec.cor.bet.secs.2 and 35, which is a sandston, 5x12x5 ins., above ground, firmly set, and marked and witnessed as described by the surveyor general, bears North, 61 lks.dist.

80.06 The cor.of secs.1,2,35, and 36, which is a sandstone, 5x15x5 ins., above ground, firmly set, and marked and witnessed as described by the surveyor general, bears North, 130 lks.dist.; the course of this line is therefore N.89° 04'E., 80.07 chs.

---

East, on a retracement line bet.secs.1 and 36.

39.95 The  $\frac{1}{4}$  sec cor.bet.secs.1 and 36, which is a sandstone, 6x15x7 ins. above ground, firmly set, and marked and witnessed as described by the surveyor general, bears North, 60 lks.dist.

76.83 The closing cor.of Tpsc2 S., Rs.4 and 5 W., heretofore described, bears North, 125 lks.dist.

79.88 The cor.of Tps.1 S., Rs.4 and 5 W., heretofore described bears North 130 lks.dist. ; the course of this line is therefore N.89° 04'E., 79.89 chs.

October 13, 1903: At this cor. I set Off 7° 32'S., on the decl.arc; and at 0 h 2 m p.m., l.m.t., I observe the s on the meridian, the resulting lat. is 40° 21'N.

October 13, 1903.

Note: On account of the great distance and loss of time in obtaining a notary public or any properly authorized officer of the court, I administer the preliminary and final oaths.

  
 U.S. Deputy Surveyor.

# FINAL OATHS OF DEPUTY SURVEYOR AND HIS ASSISTANTS.

## LIST OF NAMES.

A list of the names of the individuals employed by Andrew J. Stewart Jr., United States Deputy Surveyor, to assist in running, measuring, and marking the lines and corners described in the foregoing field notes of the survey of retrace ment of the E. bdy. of T. 3 S., R. 4 W.; and the retracement of the N. bdy. of T. 2 S., R. 5 W. of the Uintah Special Base and Meridian, in the State of Utah, owing the respective capacities in which they acted:

Joseph E. Pickens, Chainman.  
Jacob A. Accord, Chainman.  
Arthur C. Thompson, Moundman.  
Paul Ashworth, Moundman.  
Thomas E. Taylor Jr., Axman.  
John H. Kienke, Axman.  
Dinby Stewart, Flagman.

## FINAL OATH OF ASSISTANTS.

We hereby certify that we assisted Andrew J. Stewart Jr., retracing and re surveying all parts or portions of the E. bdy. of T. 3 S., R. 4 W.; and in retracing all parts or portions of the N. bdy. of T. 2 S., R. 5 W. of the Uintah

Base and meridian, State of Utah, which are represented the foregoing field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor General for Utah.

Joseph E. Pickens, Chainman.  
Jacob A. Accord, Chainman.  
Arthur C. Thompson, Moundman.  
Paul Ashworth, Moundman.  
Thomas E. Taylor Jr., Axman.  
John H. Kienke, Axman.  
Dinby Stewart, Flagman.

scribed and sworn to before me this 11<sup>th</sup> day of December, 1903.

Andrew J. Stewart Jr.  
U.S. Deputy Surveyor

FINAL OATH OF UNITED STATES DEPUTY SURVEYOR.

I, Andrew J. Stewart Jr., United States Deputy Surveyor, solemnly swear that, in pursuance of a contract received from Edward H. Anderson, United States Surveyor General for Utah, bearing date of the 22nd day of July, 1903, I have well, faithfully, and truly, in my proper person, and in strict conformity with the instructions furnished by the United States Surveyor General for Utah, the Manual of Surveying Instructions, and the laws of the United States, ~~surveyed~~ retraced and reexamined all those parts or portions of the E. boundary of T. 3 S., R. 4 W.; and retraced all those parts or portions of the N. boundary of T. 2 S., R. 5 W.

of the Uintah Special Base and ~~in~~ <sup>and</sup> meridian, in the States of Utah, which are represented in the foregoing field notes as having been ~~surveyed~~ retraced by me, and under my direction; and I do further solemnly swear that all the corners of said ~~Survey~~ have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the United States Surveyor General for Utah, and in the specific manner described in the field notes, and that the foregoing are the original field notes of such ~~Survey~~; and should any fraud be detected, I will incur the penalty of perjury under the provisions of an Act of Congress approved August 8, 1846.

Andrew J. Stewart Jr.  
United States Deputy Surveyor

Subscribed by said Andrew J. Stewart Jr., and sworn to before me this 6th day of April, 1904

SEAL  
OCT 1904

APPROVAL.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

Salt Lake City, Utah, August 22, 1903

The foregoing field notes of the ~~Survey~~ Retracement of the North Boundary of Township No. 2 South, Range No. 5 West of the Uintah Special Base and Meridian, Utah,

executed by Andrew J. Stewart Jr. and Alfred L. Booth under his contract No. 270, dated July 22, 1903, ~~now~~, having been critically examined, and the necessary corrections and explanations made, the said field notes, and the surveys they describe, are hereby approved.

Edward H. Anderson  
United States Surveyor General

I certify that the foregoing transcript of the field notes of the above-described surveys in ~~the~~, has been correctly copied from the original notes on file in this office.

perform the duties of flagman according to instructions given me, to the best of my skill and ability, in the  
survey of .....

....., *Flagman*.

Subscribed and sworn to before me this ..... }  
day of ..... , 189 }

Survey commenced October 13, 1903; and executed with a W. and L.E. Gurley light mountain transit, No. 1, with solar attachment. The horizontal limb is provided with two double verniers placed opposite to each other reading to single minutes of arc; which is also the least count of the latitude and declination arcs.

The instrument was examined, tested on the meridian at Salt Lake City, found correct, and was approved by the surveyor general for Utah, on August 10, 1903.

I examine the adjustments of the instrument and correct the level and collimation errors; then, to test the solar apparatus, by comparing its indications resulting from solar observations made during p.m. and a.m. hours, with a meridian established by Polaris observation, I proceed as follows:

At the cor. of secs. 1, 2, 35, and 36, on S. bdy. of Tp., latitude  $40^{\circ} 15' 54''$  N., longitude  $110^{\circ} 26' 29''$  W., I set off  $40^{\circ} 16'$  N., on the lat. arc;  $7^{\circ} 34' S.$ , on the decl. arc; and at 4 h 2 m p.m., l.m.t., determine with the solar a meridian and mark a point thereof on a stone, firmly set in the ground, 5.00 chs. N. of cor.

At 6 h 4 m p.m., l.m.t., I observe Polaris at eastern elongation, in accordance with the manual, and mark the line thus determined, on a peg driven in the ground, 5.00 chs. N. of the cor.

October 13, 1903.

October 14, 1903: At 7 h 30 m a.m., l.m.t., I lay off the azimuth of Polaris  $1^{\circ} 34.8'$  to the west, and mark the meridian thus determined, by cutting a small groove in the stone already set 5.00 chs. N. of the cor.; this mark falls 0.30 ins. east of the mark es-

Subdivision of T. 2 S., R. 5 W.-Continued

tablished with the solar.

At 8 h 2 m a.m., l.m.t., I set off  $40^{\circ}16'N.$ , on the lat. arc;  $7^{\circ}49'S.$ , on the decl. arc; and mark the meridian determined with the solar, by a cross on the stone already set 5.00 chs. N. of the cor.; this mark falls 0.35 ins. east of the mark established by Polaris observation.

The solar apparatus, by p.m. and a.m. observations, defines positions for meridian, respectively about  $0'16''$  west and  $0'18''$  east of the meridian established by Polaris observation; therefore I conclude that the adjustments of the instrument are satisfactory.

The magnetic bearing of the meridian at 8 h 20 m a.m. is  $N.16^{\circ}37'W.$ , the angle thus determined gives the mag. decl.  $16^{\circ}37'E.$

From the cor. of secs. 1, 2, 35, and 36., heretofore described., on S. bdy. of Tp.,

I run

$N.0^{\circ}1'W.$ , bet. secs. 35 and 36.

Over level canon bottom; through dense sage brush.

3.80 Wash, 20 lks. wide, 3 ft. deep, course W.

10.00 Wash, 20 lks. wide, 5 ft. deep, course SW.

22.00 Leave canon bottom, bears NE and NW.

Enter scattering timber, bears NE and NW.

Ascend rocky side hill.

33.00 Top of ascent, 300 ft. above canon, bears NE and NW.  
Thence over mesa.

40.00 Set a sandstone,  $14 \times 8 \times 6$  ins.,  $\frac{9}{16}$  ins. in the ground, for  $\frac{1}{4}$  sec. cor., marked  $\frac{1}{4}$  on W. face; from which

A cedar, 4 ins. diam., bears  $S.30^{\circ}E.$ , 135 lks.

dist., marked  $\frac{1}{4}$  S 36 B T.

A cedar, 10 ins. diam., bears  $S.60^{\circ}W.$ , 80 lks.

Subdivision of T.2 S.R.5 W.-Continued.

Chains.

- dist., marked  $\frac{1}{4}$  S.35 B T
- 50.00 Leave timber bears N.80°W. and S.80°E.
- 80.00 Set a sandstone 15x10x4 ins.10 ins.in the ground for cor.of secs.25,26,35, and 36,marked with 1 notch on S. and 1 notch on E.edges;and dig pits 18x18x12 ins.in each sec. $5\frac{1}{2}$  ft.dist.;and raise a mound of earth 4 ft.base 2 ft.high W.of cor.
- Land mountainous and level.
- Soil sandy and clay loam and rocky;2nd and 4th rate.
- Timber cedar and pinon pine.
- Undergrowth sagebrush and greasewood.
- Good grass for grazing.
- Mountainous land,or land covered with dense undergrowth
- 80.00 chs.

---

Note: Knowing that the line betsecs.25 and 36 will not intersect the E.bdy.of Tp.within limits,I run

N.89°54'E.on a random line betsecs.25 and 36  
for distance only.

- 40.00 Set temp. $\frac{1}{4}$  sec.cor.
- 80.16 Intersect E.bdy.of Tp.,or First Guide Meridian West,  
3.24 chs.S.of the cor.of secs.25,30,31, and 36,heretofore  
described.Th
- Set a sandstone 18x14x4 ins.12 ins.in the ground,for  
closing cor.of secs.25 and 36,marked C C on W.,with 5  
grooves on N.and 1 groove on S.faces;from which  
A cedar 14 ins.diam.bears S.35°W.65 lks.dist.  
marked T 2 S.R.5 W S 36 B T
- A cedar 24 ins.diam.bears N.44°W.15 lks.dist.  
marked T 2 S R 5 W S 25 B T
- I destroy all marks on the cor.of secs.25,30,31, and 36  
which pertain to secs.25, and 36.
- Thence I run
- S.89°54'W.on a true line betsecs.25 and 36

SUBDIVISION OF T.2 S.R.5 W.-Continued.

Chains	
7.0	Ascending through heavy cedar and pinon pine timber bears N.30°W.and S.30°E.

Over mountainous land; through scattering timber and scattering undergrowth.

Ascend over a series of perpendicular ledges from 5 to 100 ft. high.

40.00 Set a sandstone, 24x10x4 ins., 18 ins. in the ground, for  $\frac{1}{4}$  sec.cor., marked  $\frac{1}{4}$  on W.face; from which

A pinon pine, 6 ins.diam., bears S.30° E., 130 lks.dist., marked  $\frac{1}{4}$  S 22 B T.

## Subdivision of T. 2 S. R. 5 E. -Continued

Chains	A cedar, 5 ins. diam., bears W., 100 lks. dist. marked $\frac{1}{2}$ S. 21 E. T.
51.65	Top of ridge, 1000 ft. above sec. cor., and 200 ft. above $\frac{1}{2}$ sec. cor., bears N. 30° W. and S. 30° E. Thence continue to ascend gradually over ledges from 5 to 15 ft. high.
80.00	Set a sandstone, 16x16x7 ins., 11 ins. in the ground, for cor. of secs. 15, 16, 21, and 22, marked 2 S. on NE., 5 W. on SE faces; and 3 notches on S. and 3 notches on E. edges; and raise a mound of stone, 2 ft. base, $1\frac{1}{2}$ ft. high, W. of cor. Land, mountainous very rough. Soil, rocky; 4th rate. Timber, cedar and pinon pine. Undergrowth, sage brush. Good grass for grazing. Mountainous land, 80.00 chs.
	October 19, 1903: At this cor. I set off 46° 19' N., on the lat. arc; 9° 45' S., on the decl. arc; and at 4 h 30 m p.m. l.m.t., determine with the solar a meridian, and mark a point thereof on a stone already set 5.00 chs. N. of the cor. At 5 h 41 m p.m., l.m.t., I observe Polaris at eastern elongation, in accordance with the Manual, and mark the line thus determined, on a peg driven in the ground, 5.00 chs. N. of the cor.
	October 19, 1903.
	October 20, 1903: At 7 h 30 m a.m., l.m.t., I lay off the azimuth of Polaris 1° 34.8' to the west, and mark a point in the meridian thus determined, by cutting a small groove in the stone already set 5.00 chs. N. of the cor.; this mark falls 0.38 ins. east of the mark

Subdivision of T 2 S R 5 W.-Continued.

Chains determined with the solar.  
 At 8 h 2 m a.m., l.m.t., I set off  $40^{\circ}19'N.$ , on the lat. arc;  $10^{\circ}1'S.$ , on the decl. arc; and mark a point in the meridian determined with the solar, by a cross on the stone already set 5.00 chs. N. of the cor.; this mark falls 0.3 ins. east of the meridian established by the Polaris observation.  
 The solar apparatus, by p.m. and a.m. observations defines positions for meridians respectively about  $0'20''$  west and  $0'16''$  east of the meridian established by Polaris observation; therefore I conclude that the adjustments of the instrument are satisfactory.  
 The magnetic bearing of the meridian at 8 h 30 m a.m. is  $N.10^{\circ}35'W.$ , the angle thus determined gives the mean mag. decl.  $10^{\circ}35'E.$

Thence I run

East, on a random line bet. secs. 15 and 22.

40.00 Set temp.  $\frac{1}{4}$  sec. cor.

November 25, 1903.

GENERAL DESCRIPTION.

This township contains several varieties of land from level canon bottoms to high rocky ridges. The soil of the canon bottoms and mesas is generally sandy loam; 2nd rate, and the ridges are generally gravelly; 3rd and 4th rate.

The township is well watered in the western part by Rock Creek, which is about 90 lks. wide and  $1\frac{1}{2}$  ft. deep, and DuChesne River in the southern part. This river is about 100 lks. wide and 2 ft. deep.

Cottonwood timber is found along the river bottoms, and cedar and pinon pine timber is found on nearly every section in the township.

There is no mineral in the township.

There are five Indian settlers who are farming, altogether, about 200 acres of land; but I was unable to get their names or the amount of land each one claimed because there was no interpreter available.

Subdivision of T. 2 S. R. 5 W.-Concluded.

Chains There is an Indian log cabin is sec. 34, which has been abandoned.

There is an Indian cabin in the NW  $\frac{1}{4}$  on sec. 19, not seen from line.

In the north central part of the township is a large rolling mesa, which <sup>is</sup> well adapted for grazing purposes and, in my opinion will produce good crops without irrigation.

U.S. Deputy Surveyor.

Corrective Notes of

Subdivision of T.2 S., R.5 W.

Survey commenced April 23, 1905, and executed with a W. and L.E. Gurley light mountain transit No.-, with solar attachment. The horizontal limb is provided with two double verniers placed opposite to each other, reading to single minutes of arc; which is also the least count of the verniers of the latitude and declination arcs. The instrument was examined, tested on the meridian at Salt Lake City, found correct, and was approved by the surveyor general for Utah, on April 1, 1905.

I examine the adjustments of the instrument and correct the level and collimation errors; then, to test the solar apparatus by comparing its indications resulting from solar observations made during p.m. and a.m. hours, with a meridian established by observation on Polaris, I proceed as follows:

At the cor. of secs. 1, 2, 35, and 36, on S. bdy. of Tp. lat.  $40^{\circ} 15' 54''$  N., longitude  $110^{\circ} 26' 28''$  W., I set off  $40^{\circ} 16' 11''$  N., on the lat. arc;  $12^{\circ} 33' 11''$  N., on the decl. arc; and at 3 h 2 m p.m., l.m.t., I determine a meridian with the solar, and mark a point thereon on a stone firmly set in the ground, 5.00 chs. N. of the cor.

April 23, 1905.

---

April 24, 1905: At 5 h 21 m a.m., l.m.t., I observe Polaris at eastern elongation, in accordance with the Manual, and mark a point in the line thus determined, on a peg driven in the ground, 5.00 chs. N. of the cor.

At 6 h 30 m a.m., l.m.t., I lay off the azimuth of Polaris  $1^{\circ} 34'$  to the west, and mark the meridian thus determined by cutting a small groove in the stone already set 5.00 chs. N. of the cor.; this mark falls 0.3 ins. east of the mark determined with the solar.

At 7 h 3 m a.m., l.m.t., I set off  $40^{\circ} 16' 11''$  N., on the lat. arc.  $12^{\circ} 47' 11''$  N., on the decl. arc; and mark the meridian de-

**Corrective Notes of**

**Subdivision of T. 2 SUR 5 T. -Continued.**

Chs. determined with the solar, by a cross on the stone already set 5.00 chs. N. of the cor.; this mark falls 0.4 ins. east of the meridian established by Polaris observation. The solar apparatus by p.m. and a.m. observations defines positions for meridians respectively about  $0^{\circ}10'$  west and  $0^{\circ}21'$  east of the meridian established by Polaris obser- vation; therefore I conclude that the adjustments of the instrument are satisfactory.

The magnetic bearing of the meridian at 7 h 30 m.am., is N. $16^{\circ}37'W.$ , the angle thus determined gives the mag. decl. $16^{\circ}37'E.$

From the cor. of secs. 1, 2, 35, and 36, on S.bdy. of Tp., described correctly in the original field notes.

**PAGE**

Corrective Notes of

Subdivision of T 2 S R 5 W -

chs. Survey commenced Aug. 4, 1905, and executed with a W. and L.E. Gurley light mountain transit No.-. with solar attachment. The horizontal limb is provided with two double verniers placed opposite to each other, reading to single minutes of arc; which is also the least count of the verniers of the latitude and declination arcs.

The instrument was examined, tested on the meridian at Salt Lake City, found correct, and was approved by the surveyor general for Utah, on April 1, 1905.

At the cor. of secs. 13, 14, 23, and 24, latitude  $40^{\circ} 18' 30''$  N., longitude  $110^{\circ} 27' 36''$  W. I set off  $40^{\circ} 19'$  N., on the lat. arc.  $17^{\circ} 23'$  N., on the decl. arc; and at 7 h z m a.m., l.m.t., I determine a meridian with the solar, at the cor. of secs. 13, 14, 23, and 24.

Note: For complete test of instrument see notes of Sub. T. 2 S., R. 4 W.

From the cor. of secs. 13, 14, 23, and 24, properly described in the original field notes.

Thence I run

N. $0^{\circ} 1'$  W., bet. secs. 13 and 14.

40.10 Fall 10 lks. E. of  $\frac{1}{2}$  sec. cor.

I move the cor. 10 lks. E. and and 10 lks. S. and Set a sandstone, 20x8x6 ins., 15 ins. in the ground, for  $\frac{1}{2}$  sec. cor.. mkd.  $\frac{1}{4}$  on W. face; from which

A cedar, 14 ins. dia., bears N. $83^{\circ}$  E., 142 lks.  
dist.. mkd.  $\frac{1}{4}$ . S 13 B T..

A cedar, 10 ins. dia., bears N. $57^{\circ}$  W., 32 lks.  
dist. mkd.  $\frac{1}{4}$ . S 14 B T..

Note: I destroy all traces of the old cor.

80.10 Fall 3 lks. E. of cor. of secs. 11, 12, 13, and 14.

I move the cor. 10 lks. S. and 3 lks. E. and Set a cobblestone 16x8x5 ins., 11 ins. in the ground, for cor. of secs. 11, 12, 13, and 14. mkd. with 4 notches on S. and 1 notch on E. edges; and raise a mound of stone, 2 ft. base, 1 $\frac{1}{2}$  ft. high, W. of cor.

PRELIMINARY OATHS OF ASSISTANTS.

We, Hyrum G. Smith and Harvey R. Booth and I,  
do solemnly swear that we will well and faithfully execute the duties of chainmen; that we will level  
chain over even and uneven ground, and plumb the tally pins, either by sticking or dropping the same; we  
will report the true distances to all notable objects, and the true lengths of all lines that we assist  
measuring, to the best of our skill and ability, and in accordance with instructions given us, in the survey  
the First St. Par. S., through R. 6 and 7 M. of the Uintah Special Base and  
Meridian, in the State of Utah.

Hyrum G. Smith, Chainm.

day of August, 1903.

Alfred L. Booth  
U. S. Deputy Surv.

I, Fred H. Meldrum, do solemnly swear that I will well and truly  
perform the duties of flagman according to instructions given me, to the best of my skill and ability, in the  
survey of the First St. Par. S., through R. 6 and 7 M. of the Uintah Special  
Base and Meridian, in the State of Utah. Fred H. Meldrum, Flagma.

Subscribed and sworn to before me this 30<sup>th</sup>  
day of August, 1903.

Alfred L. Booth  
U. S. Deputy Survey

First Standard Parallel South through Range 6 West.	
Chains	Survey commenced October 11, 1903, and executed with a Young and Sons, light mountain transit No. 7381, with solar attachment. The horizontal limb is provided with two double verniers placed opposite to each other, reading to single minutes of arcs; which is also the least count of the latitude and declination arcs. The instrument was examined, tested on the meridian, at Salt Lake City, found correct, and was approved by the surveyor general for Utah, on August 21, 1903. I examine the adjustments of the instrument, and correct the level and collimation errors; then, to test the solar apparatus, by comparing its indications resulting from solar observations made during p.m. and a.m. hours, with a meridian established by Polaris observation, I proceed as follows:
	At the Standard cor. of Tps. 4 S., Rs. 5 and 6 W., latitude $40^{\circ} 05' 28''$ N., longitude $110^{\circ} 32' 07''$ W., I set off $40^{\circ} 05'$ N., on the lat. arc; $6^{\circ} 49' S.$ , on the decl. arc; and at 4 h 2 m p.m., l.m.t., determine a meridian with the solar, and mark a point thereof on a stone firmly set in the ground, 5.00 chs. N. of the cor.
	At 6 h 12' m p.m., l.m.t., I observe Polaris at eastern elongation, in accordance with the Manual, and mark a point in the line thus determined, on a peg driven in the ground, 5.00 chs. N. of the cor.
	October 11, 1903.
<hr/>	
	October 12, 1903: At 7 h 30 m a.m., l.m.t., I lay off the azimuth of Polaris. $1^{\circ} 34.8'$ to the west, and mark the meridian thus determined, by cutting a small groove in the stone already set 5.00 chs. N. of the cor.; this point falls 0.37 ins. east of the mark established with the solar.

First Standard Parallel South through Range 6 W. S. 20.00

Chains At 8 h 3 m a.m., l.m.t., I set off 40°05' N., on the lat. arc; 7°4'S., on the decl. arc; and mark the meridian determined with the solar, by a cross on the stone already set 5.00 chs. N. of the cor.; this mark falls 0.41 ins. east of the mark established by the Polaris observation.

The solar apparatus by p.m. and a.m. observations defines positions for meridian, respectively about 0° 20" west and 0° 22" east of the meridian established by Polaris observation; therefore I conclude that the adjustments of the instrument are satisfactory.

The magnetic bearing of the meridian at 8 h 30 m a.m. is 16°31'W., the angle thus determined, gives the mag. decl. 16°31'E.

From the point 2.79 ft. south of the standard cor. of Tps. 4. S., Rs. 5 and 6 W., heretofore described

I turn off an angle of 89°58' to the west, from the meridian, and run

N.89°58'W., on secant south of sec. 36.

Over mountainous land; through heavy timber and scattering undergrowth.

Ascend .

18.00 Top of ridge, 400 ft. above cor., bears NW and SE.

Descend .

20.00 Leave heavy and enter scattering timber, bears NW. and SE.

Difference between measurements of 40.00 chs., by two sets of chainmen, is 4 lks. position of middle point  
By 1st set, 39.98 chs.

40.00 By 2nd set, 40.03 chs.; the mean of which is N. 1.25 ft. from secant.  
Set a hard sandstone, 20x14x6 ins., 15 ins. in the ground, for standard & sec. cor., marked S.C.  $\frac{1}{4}$  on N. face; from which

First Standard Parallel South through Range 6 West-Continued.

Chains	A pinon pine, 12 ins. diam., bears N. 42° W., 75 lks. dist., marked S. C. $\frac{1}{4}$ S. 36. B T. And raise a mound of stone, 2 ft. base, $1\frac{1}{2}$ ft. high, N. of cor.
47.50	Bottom of hollow, 50 ft. below $\frac{1}{4}$ sec. cor., course SE. Ascend.
60.00	Top of ridge, 250 ft. above hollow, bears NW and SE. Descend.
70.00	Bottom of hollow, 300 ft. below ridge, course SE. Thence along bottom of hollow.
77.00	Leave bottom of hollow, course E. Ascend through heavy timber. Difference between measurements of 80.00 chs., by two sets of chainmen, is 6 lks. position of middle point By 1st set, 79.97 chs. By 2nd set, 80.03 chs.; the mean of which is
80.00	Set a sandstone, 18x12x4 ins., 12 ins. in the ground, for standard cor. of secs. 35 and 36, marked S. C. on N., with 1 groove on E. and 5 grooves on W. faces; from which, A pinon pine, 12 ins. diam., bears N. 76° E., 65 lks. dist., marked T 4 S R 6 W S 36 B T. A pinon pine, 10 ins. diam., bears N. 66° 30' W., 53 lks. dist., marked T 4 S R 6 W S 35 B T. Land, mountainous. Soil, gravelly; 3rd rate. Timber, cedar and pinon pine. Undergrowth, sage brush. Good grass for grazing. Mountainous or heavily timbered land, 80.00 chs. N. 89° 59' W., on secant through sec. 35.

I am unable to see the signal erected for a test sight at the  $\frac{1}{4}$  sec. cor., on S. side of secs. 33, therefore I cannot test the line just run, with a Polaris meridian.

Land, mountainous .

Soil, sandy loam and gravelly; 2nd and 3rd rate.

Timber, cedar, pinon pine, red pine, and white pine.

Good grass for grazing.

Mountainous or heavily timbered land, 80.00 chs.

October 12, 1903.

First Standard Parallel South, through Range 6 W -Concluded

.GENERAL DESCRIPTION.

Through Range, 6 West this line crosses a series of ridges and hollows, heavily timbered most of the way, and covered with excellent grass for grazing. The land on both sides of the Parallel is mountainous; well timbered and sufficiently well watered for grazing purposes. They should be subdivided.

*Alfred L Booth*  
U.S. Deputy Surveyor.

APPROVAL

OFFICE OF THE UNITED STATES SURVEYOR GENERAL.

Salt Lake City, Utah, August 22, 190

The foregoing field notes of the survey of First Standard Parallel South, through  
Range No. 6 West of the Uintah Special Base and Meridian, Utah,

executed by Andrew J. Stewart Jr. and Alfred L. Booth  
under his contract No. 270, dated July 22, 1903, 1903, having been  
critically examined, and the necessary corrections and explanations made, the said field notes, and the  
surveys they describe, are hereby approved.

*Edward Rudderow*  
United States Surveyor Gen.

I certify that the foregoing transcript of the field notes of the above-described surveys in P.  
....., has been correctly copied from the original notes on file in this office.

West boundary of T. 4 S., R. 6 W.-

Survey commenced October 13, 1903, and executed with a Young and Sons light mountain transit, No. 7381, with solar attachment. The horizontal limb is provided with two double verniers placed opposite to each other, reading to single minutes of arc; which is also the least count of the latitude and declination arcs.

Note: For complete test of instrument see notes of subdivision of this township.

I begin at the standard cor. of Tps. 4 S., Rs. 6 and 7 W., latitude  $40^{\circ} 05' 28''$  N., longitude  $110^{\circ} 38' 54''$  W., I set off  $40^{\circ} 05' N.$ , on the lat. arc;  $7^{\circ} 27' S.$ , on the decl. arc; and at 8 h 2 r a.m.l.m., t. determine a meridian with the solar.

Thence I run

North, bet. secs. 31 and 36.

Over mountainous land; through heavy timber.

Ascend.

13.00 Top of ridge, 100 ft. above cor., bears N.  $40^{\circ}$  E. and S.  $10^{\circ}$  W.

Descend.

40.00 Bottom of hollow, 250 ft. below ridge, course NW.

Set a sandstone, 18x12x4 ins., 12 ins. in the ground, for  $\frac{1}{4}$  sec. cor., marked  $\frac{1}{2}$  on W. face; from which

A cedar, 24 ins. diam., bears N.  $15^{\circ}$  E., 14 lks. dist., marked  $\frac{1}{2}$  S 31 B T.

A red pine, 8 ins. diam., bears N.  $60^{\circ}$  W., 35 lks. dist., marked  $\frac{1}{2}$  S 36 B T.

53.00 Top of ridge, 200 ft. above hollow, bears NW and SE.

Descend.

64.00 Bottom of hollow, 250 ft. below ridge, course NW.

Ascend.

80.00 Set a sandstone, 16x8x5 ins., 11 ins. in the ground, for cor. of secs. 25, 30, 31, and 36, marked with 5 notches on N. and 1 notch on S. edges; from which

## West boundary of T 4 S. R 6 W. -Continued.

Chains	A pinon pine, 10 ins. diam., bears N. 38° E., 33 lks. dist., marked T 4 S R 6 W S 30 B T.
	A pinon pine, 14 ins. diam., bears S. 47° E., 66 lks. dist., marked T 4 S R 6 W S 31 B T.
	A pinon pine, 8 ins. diam., bears S. 68° W., 57 lks. dist., marked T 4 S R 7 W S 36 B T.
	A pinon pine, 8 ins. diam., bears N. 20° W., 69 lks. dist., marked T 4 S R 7 W S 25 B T.
Land, mountainous	
Soil, gravelly; 3rd rate.	
Timber, cedar, pinon pine and a few scattering red pine.	
Good grass for grazing.	
Mountainous or heavily timbered land, 80.00 chs.	

North, bet. secs. 25 and 30.

Over mountainous land; through heavy timber.

Ascend .

3.00 Top of ridge, 10 ft. above sec. cor., bears NW and E.

Descend .

37.00 Bottom of hollow, 300 ft. below ridge, course W.

Ascend .

40.00 Set a sandstone, 18x7x4 ins., 12 ins. in the ground, for  $\frac{1}{4}$  sec. cor., marked  $\frac{1}{4}$  on W. face; from which

A pinon pine, 8 ins. diam., bears N. 60° E., 67 lks. dist., marked  $\frac{1}{4}$  S. 30 B T.

A pinon pine, 6 ins. diam., bears S. 56° W., 89 lks. dist., marked  $\frac{1}{4}$  S 25 B T.

58.00 Top of ridge, 300 ft. above hollow, bears NW and SE.. .  
Descend .

80.00 Set a sandstone, 15x8x5 ins., 10 ins. in the ground, for cor. of secs. 18, 24, 25, and 30, marked with 4 notches on N. and 2 notches on S. edges; from which

A pinon pine, 16 ins. diam., bears N. 25° E., 16

Chains	
62.00	Old road,bears N.20° E. and S.20° W.
76.15	Same road,bears N.20° W. and S.20° E.
77.00	Same wash ,20 lks.wide,4 ft.deep, course N.20° W.
80.00	Set a shalestone,18x8x6 ins.,12 ins.in the ground, for cor.of secs.13,18,19, and 24,marked with 3 notches on N. and 3 notches on S.edges;and raise a mound of stone,2 ft.base,1½ ft.high,W.of cor. Land,mountainous and level . Soil,gravelly;3rd rate. Timber,cedar and pinon pine. Undergrowth,sage brush. Good grass for grazing. Mountainous or heavily timbered land,or land covered with dense undergrowth,80.00 chs. October 13,1903:At the noon hour the sky is overcast and solar observations are impossible.
	North,betsecs.13 and 18. Over level canon bottom;through dense undergrowth. Leave canon bottom,bears NW and SE. Leave undergrowth and enter scattering timber, bears NW and SE. Ascend . Top of ridge,650 ft.above canon,bears NW and SE. Descend . Set a limestone,16x11x4 ins.,11 ins.in the ground, for $\frac{1}{4}$ sec.cor.,marked $\frac{1}{4}$ on W.face;from which A pinon pine,10 ins.diam.,bears E.,15 lks. dist.,marked $\frac{1}{4}$ S 18.B.T; A pinon pine,12 ins.diam.,bears W.;75 lks. dist.,marked $\frac{1}{4}$ S 13 B.T.

West boundary of T.4 S., R.6 W -Continued.

Chains	
63.00	Top of perpendicular limestone ledge, 60 ft. high, bears E. and W.
67.00	Foot of descent, 500 ft. below ridge, bears E. and W. Leave timber and enter dense undergrowth of willows and rose bushes, bears E. and W.
	Enter bottom of Strawberry River Canon.
71.00	Old road, bears E. and W.
78.70	Right bank of Strawberry River, sandy bottom, moderate current, 3 ft. deep, course N. Point for cor. of secs. 7, 12, 13, and 18, will fall in river and cannot be set; therefore at this point,
78.70	Set a sandstone, 15x8x6 ins., 10 ins. in the ground, for witness cor. to cor. of secs. 13 and 18, marked W.Q. on NE face; with 2 notches on N. and 4 notches on S. edges; and raise a mound of stone, 2 ft. base, 1½ ft. high, N. of cor.
80.00	Point for cor. of secs. 7, 12, 13, and 18, falls in river and cannot be set. Land, mountainous and level... Soil, sandy loam and gravelly; 2nd and 3rd rate. Timber, cedar and pinon pine. Undergrowth, willows and rose bushes. Good grass for grazing. Mountainous land, or land covered with dense undergrowth, 80.00 chs.
	North, bet. secs. 7 and 12.
	Along river bed.
8.00	Left bank of Strawberry River, bears N. 80° E. and S. 10° W., course N. 80° E. Enter dense undergrowth, bears with river bank.
8.10	Set a sandstone, 18x8x5 ins., 12 ins. in the ground, for witness cor. to cor. of secs. 7 and 12., marked W.C.

## West boundary of T.4 S., R.6 W.-Continued.

- Chains on NE face; with 2 notches on N. and 4 notches on S. edges; and raise a mound of stone, 2 ft. base,  $1\frac{1}{2}$  ft. high, W. of cor.
- 13.00 Leave canon bottom, bears N.  $80^{\circ}$  E. and S.  $80^{\circ}$  W.  
Leave undergrowth, bears N.  $80^{\circ}$  E. and S.  $80^{\circ}$  W.  
Ascend .
- 18.00 Enter heavy timber, bears E. and W.
- 40.00 Set a sandstone, 20x10x5 ins., 15 ins. in the ground, for  $\frac{1}{4}$  sec. cor., marked  $\frac{1}{4}$  on W. face; from which  
A pinon pine, 4 ins. diam., bears S.  $80^{\circ}$  E., 120 dist., marked  $\frac{1}{4}$  S 7 B T..  
A cedar, 7 ins. diam., bears S.  $60^{\circ}$  W., 75 lks. dist., marked  $\frac{1}{4}$  S 12 B T.
- 80.00 Set a sandstone, 18x18x6 ins., 12. ins. in the ground, for cor. of secs. 1, 6, 7, and 12, marked with 1 notch on N. and 5 notches on S. edges; from which:  
A pinon pine, 6 ins. diam., bears N.  $55^{\circ}$  E., 173 lks. dist., marked T 4 S R 6 W S 6 B T..  
A pinon pine, 8 ins. diam., bears S.  $37^{\circ}$  E., 167 lks. dist., marked T 4 S R 6 W S 7 B T..  
A pinon pine, 10 ins. diam., bears S.  $71^{\circ}$  W., 137 lks. dist., marked T 4 S R 7 W S 12 B T..  
A pinon pine, 12 ins. diam., bears N.  $50^{\circ}$  W., 215 lks. dist., marked T 4 S R 7 W S 1 B T..
- Land, mountainous and level.
- Soil, gravelly and clay ; 3rd rate.
- Timber, cedar and pinon pine .
- Undergrowth, willows and sage brush.
- Good grass for grazing.
- Mountainous or heavily timbered land, or land covered with dense undergrowth, 80.00 chs.
- 
- North, bet. secs. 1 and 6.
- Cover mountainous land; through heavy timber .

West boundary of T 4 S R 6 W -Continued

Chains	Ascend .
12.50.	Top of ridge, 150 ft. above sec.cor., bears E.and W. Descend .
16.90	Leave timber,bears E.and W. Enter dense undergrowth,bears E.and W.
21.65	Bottom of hollow,400 ft.below ridge, course E. Ascend .
28.15	Enter timber,bears E.and W.
40.00	Set a limestone,20x12x5 ins.,15 ins.in the ground, for $\frac{1}{4}$ sec.cor.,marked $\frac{1}{4}$ on W.face;from which A pinon pine,5 ins.diam.,bears S.45° E.,65 lks.dist.,marked $\frac{1}{4}$ S 6 B T. A pinon pine,4 ins.diam.,bears S.23° W.,80 lks.dist.,marked $\frac{1}{4}$ S 1 B T.
42.50	Top of spur,300 ft.above canon ,bears E.and W. Descend .

69.75	Bottom of canon,250 ft.below ridge, course S.45° E. Ascend .
72.00	Leave heavy and enter scattering timber,bears E. and W.
77.00	Leave scattering and enter heavy timber,bears E.and W.
80.00	Set a sandstone,18x8x6 ins.,12 ins.in the ground, for cor.of Tps.3 and 4 S.,R.6 and 7 W.,marked 3 S on NE,6 W on SE,4 S on SW, and 7 W on NW faces;with 6 notches on each edge;from which A pinon pine,7 ins.diam.,bears N.28° E.,105 lks.dist.,marked T 3 S R 6 W S 31 B T. A pinon pine,12 ins.diam.,bears S.40° E.,63 lks.dist., marked T 4 S R 6 W S 6 B T. A pinon pine,9 ins.diam.,bears S.29° W.,24 lks.dist.,marked T 4 S R 7 W S 1 B T.

West boundary of T. 4 S., R. 6 W. -Concluded

Chains A pinon pine, 5 ins. diam., bears N. 13° W., 43 lks. dist., marked T 3 S R 7 W S 36 B T.

Land, mountainous.

Soil, sandy and gravelly loam and clay; 2nd and 3rd. rate.

Timber, cedar and pinon pine..

Undergrowth, sage brush.

Good grass for grazing..

Mountainous or heavily timbered land, or land covered with dense undergrowth, 80.00 chs.

October 13, 1903.

## NORTH BOUNDARY OF T. 4 S., R. 6 W.

October 14, 1903: At 9 h 2 m . m., l.m.t., I set off 40° 11' N., on the lat.arc; 7° 51' S., on the decl.arc; and determine a meridian with the solar, at the cor.of Tps. 3 and 4 S., Rs. 5 and 6 W., heretofore described.

Thence I run

West, on a random line along N.bdy. of T. 4 S., R. 6 W., setting temp. & sec. and sec. cors. at intervals of 40.00 chs., and at 478.82 chs. Intersect W.bdy. of Tp. at the cor. of Tps. 3 and 4 S., Rs. 6 and 7 W.,

Thence I run

East, on a true line bet. secs. 6 and 31.  
Over mountainous land; through heavy timber.

Ascend .

North boundary of T 4 S .E 6 W -C ntinued

Chains

18.00 Top of ridge, 50 ft. above Tp.cor, bears N. and S.

Descend .

38.92 Set a limestone, 18x12x5 ins., 12 ins. in the ground,  
for  $\frac{1}{4}$  sec.cor., marked  $\frac{1}{4}$  on N. face; from which

A pinon pine, 10 ins. diam., bears N.  $2^{\circ}$  E., 68

lks dist., marked  $\frac{1}{4}$  S 31 B T.

A cedar, 5 ins. diam., bears S.  $40^{\circ}$  W., 70 lks.

dist., marked  $\frac{1}{4}$  S 6 B T.

41.00 Bottom of hollow, 200 ft. below ridge, course S.  $10^{\circ}$  W.

Ascend .

57.00 Top of ridge, 150 ft. above hollow, bears N.  $45^{\circ}$  E. and  
S.  $45^{\circ}$  W.

Descend .

78.92 Set a sandstone, 16x10x5 ins., 11 ins. in the ground,  
for cor. of secs. 5, 6, 31, and 32, marked with 5 notches  
on E. and 1 notch on W. edges; from which

A pinon pine, 10 ins. diam., bears N.  $30^{\circ}$  E., 115  
lks dist., marked T 3 S R 6 W S 32 B T.

A cedar, 18 ins. diam., bears S.  $70^{\circ}$  E., 95 lks.  
dist., marked T 4 S R 6 W S 5 B T.

A cedar, 16 ins. diam., bears S.  $60^{\circ}$  W., 55 lks.  
dist., marked T 4 S R 6 W S 6 B T.

A pinon pine, 10 ins. diam., bears N.  $47^{\circ}$  W., 55  
lks dist., marked T 3 S R 6 W S 31 B T.

Land, mountainous .

Soil, gravelly; 3rd rate.

Timber, cedar and pinon pine.

Good grass for grazing.

Mountainous or heavily timbered land, 78.92 chs.

October 14, 1903: At the noon hour the sky is overcast  
and solar observations are impossible.

North boundary of T. 4 S. R. 6 Continued

Chains	Over mountainous land through heavy timber. Descend gradually along side of hollow.
3.00	Leave timber, bears N. 70° E. and S. 70° W. Enter dense undergrowth, bears N. 70° E. and S. 70° W.
24.00	Enter scattering timber, bears NE and SW.
26.00	Leave timber, bears N. and S.
40.00	Set a sandstone, 18x9x5 ins., 12 ins. in the ground, for $\frac{1}{2}$ sec. cor., marked $\frac{1}{2}$ on N. face; from which A lone cedar, 6 ins. diam., bears N. 30° E., 120 lks. dist., marked $\frac{1}{2}$ S 32' B T. No other trees within limits; raise a mound of stone, 2 ft. base, $1\frac{1}{2}$ ft. high, N. of cor.

## FINAL OATHS OF DEPUTY SURVEYOR AND HIS ASSISTANTS.

## LIST OF NAMES.

A list of the names of the individuals employed by \_\_\_\_\_  
 \_\_\_\_\_, United States Deputy Surveyor, to assist in running, measuring, and  
 marking the lines and corners described in the foregoing field notes of the survey of \_\_\_\_\_  
 \_\_\_\_\_  
 owing the respective capacities in which they acted:

For final affidavits see book Z<sup>2</sup>Tp. Q S R. J W \_\_\_\_\_, Chainman.  
 \_\_\_\_\_, Chainman.  
 \_\_\_\_\_, Moundman.  
 \_\_\_\_\_, Moundman.  
 \_\_\_\_\_, Axman.  
 \_\_\_\_\_, Axman.  
 \_\_\_\_\_, Flagman.

## FINAL OATH OF ASSISTANTS.

We hereby certify that we assisted \_\_\_\_\_  
 \_\_\_\_\_, United States Deputy Surveyor, in surveying all  
 those parts or portions of the \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_ of the \_\_\_\_\_  
 \_\_\_\_\_

meridian, \_\_\_\_\_ of \_\_\_\_\_, which are represented  
 the foregoing field notes as having been surveyed by him and under his direction; and that said survey  
 has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the  
 corner monuments established, according to the instructions furnished by the United States Surveyor  
 general for \_\_\_\_\_

**FINAL OATH OF UNITED STATES DEPUTY SURVEYOR.**

United States Deputy Surveyor

I solemnly swear that, in pursuance of a contract received from  
United States Surveyor General for \_\_\_\_\_ bearing date \_\_\_\_\_  
day of \_\_\_\_\_, 189\_\_\_\_\_, I have well, faithfully, and truly, in my  
proper person, and in strict conformity with the instructions furnished by the United States Surveyor  
General for \_\_\_\_\_, the Manual of Surveying Instructions, and the laws of  
United States, surveyed all those parts or portions of \_\_\_\_\_  
For final affidavit see book Z<sup>1</sup> Tp. 2 S. R. 1 D.

of the \_\_\_\_\_ meridian, in the \_\_\_\_\_ of \_\_\_\_\_, which are represented in  
foregoing field notes as having been surveyed by me, and under my direction; and I do further solemnly  
swear that all the corners of said survey have been established and perpetuated in strict accordance  
with the Manual of Surveying Instructions, and the special written instructions of the United States Surveyor  
General for \_\_\_\_\_ and in the specific manner described in the field notes, and  
the foregoing are the original field notes of such survey; and should any fraud be detected, I will incur  
the penalty of perjury under the provisions of an Act of Congress approved August 8, 1846.

United States Deputy Surveyor

**APPROVAL.**

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

Salt Lake City, Utah, August 22, 1904.

The foregoing field notes of the survey of the West and North Edys. Tp. No. 4 S.  
R. G. W. of the Uintah Special Range and Meridian, Utah,

received by Andrew J. Stewart Jr. and Alfred L. Booth  
under Account No. 270, dated July 22, 1903, having been  
critically examined, and the necessary corrections and explanations made, the said field notes, and the  
survey they describe, are hereby approved.

*Edward H. Anderson*  
United States Surveyor General

I certify that the foregoing transcript of the field notes of the above-described surveys in

has been correctly copied from the original notes on file in this office.

Subdivision of T 4 S .R 6 W

Survey commenced October 15, 1903, and executed with a Young and Sons light mountain transit, No. 7381, with solar attachment. The horizontal limb is provided with two double verniers placed opposite to each other, reading to single minutes of arc; which is also the least count of the latitude and declination arcs.

The instrument was examined, tested on the meridian at Salt Lake City, found correct, and was approved by the surveyor general for Utah, on August 21, 1903.

I examine the adjustments of the instrument, and correct the level and collimation errors; then, to test the solar apparatus by comparing its indications resulting from solar observations made during p.m. and a.m. hours, with a meridian established by observation on Polaris, I proceed as follows:

At the standard cor. of secs. 35 and 36, on S. bdy. T. 4 S., R. 6 W., longitude  $110^{\circ} 33' 15''$  W., I set off  $40^{\circ} 05' N.$ , on the lat. arc;  $8^{\circ} 19' S.$ , on the decl. arc; and at 4 h 3 m p.m. l.m.t., determine with the solar a meridian, and mark a point thereof on a stone set firmly in the ground, 5.00 chs. N. of the cor.

At 5 h 56' m p.m., l.m.t., I observe Polaris at eastern elongation, in accordance with the Manual, and mark a point in the line thus determined, on a peg driven in the ground, 5.00 chs. N. of the cor.

October 15, 1903.

---

October 16, 1903: At 7 h 30 m a.m., l.m.t., I lay off the azimuth of Polaris  $1^{\circ} 34.8'$  to the west, and mark the meridian thus determined, by cutting a small groove in the stone already set 5.00 chs. N. of the cor.

Subdivision of T. 4 S. R. 6 W. -Continued

Chains	this mark falls 0.39 ins.east of the meridian determined with the solar.
	At 8 h:2 m., a.m., l.m.t., I set off $40^{\circ}05'N.$ , on the lat.arc; $8^{\circ}34'S.$ , on the decl.arc; and mark the meridian determined with the solar, by a cross on the stone already set 5.00 chs.N.of the cor.; 0.34 ins.east of the meridian established by Polaris observation.
	The solar apparatus, by p.m. and a.m. observations, defines positions for meridians respectively about $0^{\circ}21''$ west and $0^{\circ}18''$ east of the meridian established by Polaris observation; therefore I conclude that the adjustments of the instrument are satisfactory.
	The magnetic bearing of the meridian at 8 h:30 m a.m. is N. $16^{\circ}33'W.$ , the angle thus determined gives the mag.decl. $16^{\circ}33'E.$
	<hr/>
	N. $0^{\circ}1'W.$ , bet.secs. 35 and 36.
	Over mountainous land; through heavy timber
	Descend .
2.00	Bottom of hollow, 30 ft. below sec.cor., course S. $30^{\circ}E.$
	Ascend .
39.50	Top of ridge, 200 ft. above hollow, bears N. $60^{\circ}W.$ and S. $60^{\circ}E.$
	Descend .
40.00	Set a sandstone, 24x13x4 ins. 18 ins. in the ground, for $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on W.face; from which
	A pinon,pine, 7 ins.diam., bears S. $40^{\circ}E.$ , 28 lks.dist., marked $\frac{1}{4}$ S 36 B T.
	A pinon pine, 9 ins.diam., bears S. $50^{\circ}W.$ , 30 lks.dist., marked $\frac{1}{4}$ S 35 B T.
57.50	Bottom cf hollow, 75 ft. below ridge, course N. $60^{\circ}E.$
	Ascend .
62.50	Top of spur, 50 ft. above hollow, bears E. and W.
	Descend .

Subdivision of T.4 S., R.6 W.-Continued.

Chains

A pinon pine, 12 ins. diam., bears N.70° W., 77 lks. dist., marked T 4 S R 6 W S 16 B T.

Land, mountainous.

Soil, sandy loam and gravelly; 2nd and 3rd rate.

Timber, cedar and pinon pine.

Undergrowth, sage brush.

Good grass for grazing.

Mountainous or heavily timbered land, 80.00 chs.

October 21, 1903: At this cor. I set off 40° 8' N., on the lat. arc; 10° 30' S., on the decl. arc; and at 4 h 3 m

Subdivision of T.4 S., R.6 W.-Continued.

Chains p.m., l.m.t., I determine a meridian with the solar, and mark a point thereof on a stone firmly set in the ground, 5.00 chs. N. of cor:

At 5 h 33 m p.m., l.m.t., I observe Polaris at eastern elongation, in accordance with the Manual, and mark a point in the line thus determined, on a peg driven in the ground, 5.00 chs. N. of the cor.

October 21, 1903.

October 22, 1903: At 7 h 33 m a.m., l.m.t., I lay off the azimuth of Polaris  $1^{\circ} 34.8'$  To the west, and mark the meridian, thus determined, by cutting a small groove in the stone already set 5.00 chs. N. of the cor.; this mark falls 0.23 ins east of the mark determined with the solar.

At 8 h 2 m a.m., l.m.t., I set off  $40^{\circ} 8' N.$ , on the lat. arc;  $10^{\circ} 44' S.$ , on the decl. arc; and determine with the solar a meridian, and mark a point thereof by a cross on the stone already set 5.00 chs. N. of the cor.; this mark falls 0.36 ins. east of the meridian established by Polaris observation.

The solar apparatus by p.m. and a.m. observations defines positions for meridians, respectively about  $0^{\circ} 12''$  west and  $0^{\circ} 19''$  east of the meridian established by Polaris observation; therefore I conclude that the adjustments of the instrument are satisfactory.

The magnetic bearing of the meridian, at 8 h 30 m a.m., is  $N.16^{\circ} 34'E.$ ; the angle thus determined, gives the mag. decl.  $16^{\circ} 34'E.$ .

Thence I run  
 $S.89^{\circ} 54'E.$ , on a random line bet. secs. 15 and 22.

Subdivision of T. 4 S., R. 6 W.-Continued

Chains	Descend .
33.46	Bottom of hollow, 100 ft. below ridge, course N.
	Ascend .
39.46	Top of spur, 100 ft. above hollow, bears N. 10° W. and S. 10° E. Set a sandstone, 24x14x4 ins., 18 ins. in the ground, for $\frac{1}{4}$ sec. cor., marked $\frac{1}{4}$ on N. face; from which A white pine, 12 ins. diam., bears N. 15° E., 33 lks. dist., marked $\frac{1}{4}$ S 18 B T. A pinon pine, 8 ins. diam., bears S. 52° W., 39 lks. dist., marked $\frac{1}{4}$ S 19 B T.
60.00	Bottom of hollow, 100 ft. below spur, course NW.
	Ascend .
65.40	Top of ridge, 100 ft. above hollow, bears N. 20° W. and S. 20° E.
	Descend .
79.46	The cor. of secs. 17, 18, 19, and 20 . Land, mountainous and level. Soil, sandy and gravelly; 2nd and 3rd rate. Timber, cedar and pinon pine, Undergrowth, sage brush. Good grass for grazing. Mountainous or heavily timbered land, or land covered with dense undergrowth, 79.46 chs.
	N. 0° 4' W., bet. secs. 17 and 18. Over mountainous land; through scattering timber. Descend .
16.50	Foot of descent, 300 ft. below sec. cor., bears NW and SE. Leave timber and enter dense undergrowth, bears NW and SE. Enter bottom of Lake Canon.

Subdivision of T. 4 S., R. 6 W.-Continued

Chains	
24.50	South edge of Lake, bears NW and SE. 2 ft. deep on line. This lake is about 15.00 chs. long and from 3.00 chs. to 7.00 chs. wide. average depth about 10 ft. The water is alkaline , and is supplied by seeping springs along the south side of the lake. It has no outlet.
29.00	North edge of lake, bears N.70°W. and S.70°E.
34.50	Leave canon bottom, bears NW and SE. Leave undergrowth and enter scattering timber, bears NW and SE. Ascend .
40.00	Set a limestone, 16x8x4 ins., 12 ins. in the ground, for $\frac{1}{2}$ sec.cor., marked $\frac{1}{2}$ on W. face; from which A cedar, 8 ins. diam., bears N.60°E., 60 lks. dist., marked $\frac{1}{2}$ S 17 B T. A pinon pine, 8 ins. diam., bears N.30°W., 30 lks. dist., marked $\frac{1}{2}$ S 18 B T. Descend gradually.
60.00	Bottom of hollow, 50 ft. below $\frac{1}{2}$ sec.cor., course W. Ascend.
80.00	Set a sandstone, 16x10x6 ins., 11 ins. in the ground, for cor. of secs. 7, 8, 17, and 18, marked with 4 notches on S. and 5 notches on E. edges; from which A cedar, 5 ins. diam., bears N.5°E., 170 lks. dist., marked T 4 S R 6 W S 8 B T. A cedar, 4 ins. diam., bears S.39°E., 109 lks. dist., marked T 4 S R 6 W S 17 B T. A pinon pine, 4 ins. diam., bears S.51 ° 30' W. 87 lks. dist., marked T 4 S R 6 W S 18 B T. A cedar, 4 ins. diam., bears N.62°W., 105 lks. dist., marked T 4 S R 6 W S 7 B T. Land, mountainous and level. Soil, gravelly and rocky; 3rd and 4th rate. Timber, cedar and pinon pine. Undergrowth, greasewoods. Good grass for grazing.

Subdivision of T 4.S R 6.W -Continued.

Chains	Mountainous land, or land covered with dense under-growth, 80.00 chs.
	N.89°50'E., on a random line bet. secs. 8 and 17.
40.00	Set. temp. $\frac{1}{4}$ sec.cor..
80.40	Intersect N. and S. line, 5 lks.S. of the cor.of secs. 8, 9, 16, and 17.
	Thence I run
	S.89°48'W., on a true line bet. secs. 8 and 17.
	Over mountainous land; through heavy timber.
	Descend .
1.25	Bottom of hollow, 20 ft. below sec.cor., course N.10°E.
	Ascend.
13.00	Top of ridge, 150 ft. above hollow, bears N.10°E. and S.10°W.
	Descend .
17.85	Bottom of hollow, 60 ft. below ridge, course NW.
	Ascend .
25.50	Top of spur, 80 ft. above hollow, bears NW and SE.
	Descend .
30.00	Bottom of hollow, 60 ft. below ridge, course N.60°W.
	Ascend ..
40.20	Top of spur, 50 ft. above hollow, bears N.80°W. and S.80°E.
	Set a limestone, 24x14x4 ins., 18 ins.in the ground, for $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on N.face; from which
	A pinon pine, 8 ins.diam., bears N.14°W., 59 lks.dist., marked $\frac{1}{4}$ S 8 B T.
	A pinon pine, 9 ins.diam., bears S.22°E., 108 lks.dist., marked $\frac{1}{4}$ S 17 B T.
45.50	Bottom of hollow, 30 ft. below spur, course N.
	Ascend .
50.50	Top of spur, 120 ft. above hollow, bears N. and S.
	Descend .

Subdivision of T. 4 S., R. 6 W.-Continued.

Chains	
59.75	Bottom of hollow, 50 ft. below spur, course N. 30° W. Ascend .
66.00	Top of ridge, 80 ft. above hollow, bears NW and SE. Descend .
73.25	Begin abrupt descent, bears NE and SW.
80.40	The cor. of secs. 7, 8, 17, and 18. Land, mountainous . Soil, gravelly and rocky; 3rd and 4th rate. Timber, cedar and pinon pine. No grass. Mountainous or heavily timbered land, 80.40 chs.

October 26, 1903.

---

October 27, 1903: At 8 h 2 m a.m., l.m.t., I set off 40° 9' N., on the lat. arc; 12° 29' S., on the decl. arc; and determine a meridian, with the solar, at the cor. of secs. 7, 8, 17, and 18.

Thence I run

S. 89° 52' W., on a random line bet. secs. 7 and 18.

40.00 Set temp.  $\frac{1}{4}$  sec. cor.

78.00 Right bank of Strawberry River. Knowing that the cor. point for secs. 7, 12, 13, and 18, falls in river I set a temp. witness cor. Then I offset as follows:

South 1.30 chs.; then on offset line:

S. 89° 52' W., 1.30 chs. to west bdy. of Tp., which added to 78.00 chs. makes

79.30 Intersect W. bdy. of Tp., at the witness cor. of secs. 13 and 18., heretofore described, which is 1.30 chs. S. of the true cor. point.

Thence I run

N. 89° 52' E., on offset line,

Subdivision of T 4 S., R 6 W.-Continued.

Chains	Over level canon bottom; through dense undergrowth.
1.30	Offset 1.30 chs. N. to true line, Set a sandstone, 18x9x5 ins., 12 ins. in the ground, for witness cor. to cor. of secs. 7 and 18, marked W.C. on NE face; with 2 notches on N. and 4 notches on S. edges; and raise a mound of stone, 2 ft. base, $1\frac{1}{2}$ ft. high, W. of cor. . . . .
	On right bank of Strawberry River, course N.
	Thence I run
	N. $89^{\circ} 52' E.$ , on the true line.
	Counting the distances from the true cor. point for cor. of secs. 7, 12, 13, and 18, in river.
	Over level canon bottom through dense undergrowth.
11.35	Right bank of Strawberry River, moderate current, $2\frac{1}{2}$ ft. deep, course S.
13.00	Left bank of River, Enter scattering cottonwood timber, bears N. and S.
24.10	Left bank of Strawberry River, moderate current, 2 ft. deep, course N. . . . .
25.50	Right bank of River.
36.30	Right bank of Strawberry River, moderate current, 2 ft. deep, course S. $70^{\circ} E.$
37.90	Left bank of River.
39.30	Set a cobble stone, 15x10x6 ins., 10 ins. in the ground for $\frac{1}{4}$ sec. cor., marked $\frac{1}{4}$ on N. face; from which . . . A cottonwood, 7 ins. diam., bears N. $5^{\circ} E.$ , 46 lks. dist., marked $\frac{1}{4}$ S 7 B T. A cottonwood, 6 ins. diam., bears S. $45^{\circ} W.$ , 33 lks. dist., marked $\frac{1}{4}$ S 18 B T.
40.90	Old road, bears N. and S.
44.80	Fence, bears N. $70^{\circ} W.$ and S. $70^{\circ} E.$ . . .
49.30	Leave timber, bears N. and S.
59.20	Left bank of Strawberry River, rapid current, rocky bottom, $1\frac{1}{2}$ ft. deep, course N.
59.80	Right bank of River.

80.18	The cor. of secs. 5, 6, 7, and 8: Land, mountainous and level. Soil, sandy loam in canon bottom and rocky on mountain; 2nd and 4th rate. Timber, cedar and pinon pine. Undergrowth, sage brush and greasewoods. Good grass for grazing. Mountainous land, or land covered with dense undergrowth, 80.18 chs.

October 27, 1903.

---

#### GENERAL DESCRIPTION.

This township is all mountainous and rough, and the soil ranges from sandy loam to rocky ground. The soil of the bottoms of the canons and hollows is generally sandy loam; 2nd rate, the remainder of the township is gravelly and rocky; 3rd and 4th rate. The township is watered by Strawberry River, which has a rapid current, an average depth of 1½ ft. and an average width of 90 lks., and a lake in secs. 17 and 18, which is about 30.00 chs. long by 5.00 chs. in width and containing about 15 acres. The lake has no out let and is supplied by springs. Heavy cedar and pinon pine timber is found nearly all over the township; scattering cottonwood timber is found along the Strawberry River. There is a very dense growth of willows, sage brush,

Subdivision of T.4 S., R.6 W.-Continued.

Chains

greasewoods, bull berry brush and rose bushes, along the Strawberry River Canon.

There are no settlers in the township.

There is some elaterite float in Skitz and Lake canons but not sufficient to classify it as mineral lands.

There is an abundant growth of rich and nutritious grasses almost on the entire township.

The township is well adapted for winter and early spring grazing.

*Alfred L. Booth*  
U.S. Deputy Surveyor.

Subscribed and sworn to before me this \_\_\_\_\_  
day of \_\_\_\_\_, 189 }

I, \_\_\_\_\_, do solemnly swear that I will well and truly perform the duties of flagman according to instructions given me, to the best of my skill and ability, in the survey of \_\_\_\_\_

\_\_\_\_\_, Flagman

Subscribed and sworn to before me this \_\_\_\_\_  
day of \_\_\_\_\_, 189 }

West boundary of T. 3 S., R. 6 W.

Survey commenced October 25, 1903, and executed with a W. and L. E. Gurley light mountain transit, with solar attachment. The horizontal limb is provided with two double verniers, placed opposite to each other, reading to single minutes of arc; which is also the least count of the latitude and declination arcs. The instrument was examined, tested on the true meridian at <sup>salt</sup> Lake City, Utah, found correct, and was approved by the surveyor general for Utah, on August 10, 1903. I examine the adjustments of the instrument and correct the level and collimation errors; then, to test the solar apparatus by comparing its indications resulting from solar observations made during p.m. and a.m. hours, with a meridian established by Polaris observation, I proceed as follows: At the cor. of Tps. 3 and 4 S., Rs. 6 and 7 W., latitude  $40^{\circ} 10' 41'' N.$ , longitude  $110^{\circ} 38' 54'' W.$ , I set off  $40^{\circ} 11' N.$ , on the lat. arc;  $11^{\circ} 55' S.$ , on the decl. arc; and <sup>at 4 h p.m.</sup> determine a meridian, with the solar, and mark a point thereof on a stone firmly set in the ground, 5.00 chs. N. of the cor. At 5 h 13 m p.m., l.m.t., I observe Polaris at eastern elongation, in accordance with the Manual, and mark a point in the line thus determined, on a peg driven in the ground, 5.00 chs. N. of the cor.

October 25, 1903.

October 26, 1903. At 7 h 30 m a.m., l.m.t., I lay off the azimuth of Polaris  $1^{\circ} 34.8'$  to the west, and mark the meridian thus determined, by cutting a small groove in the stone already set 5.00 chs. N. of the cor.; this mark falls 0.4 ins. east of the meridian

## West boundary of T. 3 S., R. 6 W.—Continued

Chains determined with the solar.

At 8 h. 3 m. a.m., l.m.t., I set off  $40^{\circ}11'N.$ , on the lat. arc;  $12^{\circ}00'S.$ , on the decl. arc; and mark the meridian determined with the solar, by a cross on the stone already set 5.00 chs. N. of the cor.; this mark falls 0.31 ins. east of the meridian established by Polaris observation.

The solar apparatus by p.m., and a.m. observations defines positions for meridians, respectively about  $0'21''$  west and  $0'10''$  east of the meridian established by Polaris observation; therefore I conclude that the adjustments of the instrument are satisfactory.

The magnetic bearing of the meridian at 8 h 30 m. a. m. is  $N.16^{\circ}33'W.$ , the angle thus determined, gives the mag. decl.  $36^{\circ}33'E.$

From the cor. of Tps. 3 and 4 S., R. 6 and 7., W., heretofore described ,

I run

North, bet. secs. 31 and 36.

Over mountainous land; through heavy timber.

Ascend .

14.00 Top of divide between Strawberry River Canon and canon on north, 150 ft. above Tp. cor., bears E. and W.  
Descend .

26.50 Bottom of hollow, 150 ft. below ridge, course  $S.70^{\circ}E.$   
Ascend .

33.00 Top of ridge, 100 ft. above hollow, bears E. and W.  
Descend .

40.00 Set a sandstone,  $15 \times 8 \times 4$  ins., 10 ins. in the ground, for  $\frac{1}{4}$  sec. cor., marked  $\frac{1}{4}$  on W. face; from which  
A pinon pine, 8 ins. diam., bears  $S.80^{\circ}E.$ , 37  
lks. dist., marked  $\frac{1}{2}$  S 31 B T.

West boundary of T. 3 S., R. 6 W.-Continued.

Chains	A pinon pine, 12 ins. diam., bears W., 57 lks. dist., marked $\frac{1}{4}$ S 36 B T.
50.00	Leave timber, bears N. 80° E. and S. 80° W.
	Enter dense undergrowth, bears N. 80° E. and S. 80° W.
57.60	Wash, 15 lks. wide, 2 ft. deep in bottom of hollow, 150 ft. below ridge, course N. 85° E.
	Ascend.
62.50	Heber-Vernal road, bears E. and W.
67.00	Enter heavy timber, bears E. and W., and leave under- growth, bears E. and W.
72.00	Top of ridge, 100 ft. above hollow, bears E. and W. Descend gradually.
80.00	Set. a sandstone, 18x6x6 ins., 12 ins. in the ground, for cor. of secs. 25, 30, 31, and 36, marked with 5 notches on N. and 1 notch on S. edges; from which. A cedar, 6 ins. diam., bears N. 40° E., 69 lks. dist., marked T 3 S R 6 W S 30 B T. A pinon pine, 20 ins. diam., bears S. 56° E., 40 lks. dist., marked T 3 S R 6 W S 31 B T. A cedar, 24. ins. diam., bears S. 57° W., 51 lks. dist., marked T 3 S R 7 W., S 36 B T. A pinon pine, 9 ins. diam., bears N. 23° W., 113 lks. dist., marked T 3 S R 7 W S 25 B T. Land, mountainous. Soil, clay & loam; 3rd rate. Timber, cedar, and pinon pine. Undergrowth, sage brush. Good grass for grazing. Mountainous or heavily timbered land, or land covered with dense undergrowth, 80.00 chs.

North, bet. secs. 25 and 30.

Over mountainous land; through heavy timber.

Descend.

## West boundary of T. 3 S., R. 6 W.-Continued.

Chains	..
4.00	Foot of descent, 25 ft. below sec.cor., bears E. and W. Enter rolling mesa..
25.00	Leave mesa, bears E. and W. Descend .
40.00	Set a sandstone, 16x8x5 ins., 11 ins. in the ground, for $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on W. face; from which A cedar, 6 ins. diam., bears S. 80° E. 46 lks. dist., marked $\frac{1}{4}$ S 30 B T. A pinon pine, 8 ins. diam., bears S. 12° W., 33 lks. dist., marked $\frac{1}{4}$ S 25 B T. A sandstone boulder, 4x2x2 ft. above ground, bears W., 2. lks. dist., marked + B O.
49.50	Bottom of canon, 300 ft. below mesa, course E. Ascend .
61.00	Top of steep ascent, 250 ft. above canon, bears E. and W.. Ascend gradually.
80.00	Set a sandstone, 18x6x6 ins.; 12 ins. in the ground, for cor. of secs. 19, 24, 25, and 30, marked with 4 notches on N. and 2 notches on S. edges; from which A pinon pine, 12 ins. diam., bears N. 19° E., 75 lks. dist., marked T 3 S R 6 W S 19 B T. A pinon pine, 14 ins. diam., bears S. 61° E., 47 lks. dist., marked T 3 S R 6 W S 30 B T. A pinon pine, 8 ins. diam., bears S. 61° 30' W., 49 lks. dist., marked T 3 S R 7 W S 25 B T. A pinon pine, 18 ins. diam., bears N. 45° W., 88 lks. dist., marked T 3 S R 7 W S 24 B T. Land, mountainous and rolling mesa. Soil, clay and sandy loam; 2nd rate. Timber, cedar and pinon pine. Good grass for grazing. Mountainous or heavily timbered land, 80.00 chs.

West Boundary of T. 3 S., R. 8 W.-Continued

Chains	North, bet. secs. 19 and 24.
	Over mountainous land; through heavy timber.
Ascend .	
7.75	Top of ridge, 75 ft. above sec. cor., bears N. 65° W. and S. 65° E.
	Descend .
40.00	Set a sandstone, 18x10x8 ins., 12 ins. in the ground, for $\frac{1}{4}$ sec. cor., marked $\frac{1}{4}$ on W. face; from which A pinon pine, 14 ins. diam., bears S. 5° E., 16 lks. dist., marked $\frac{1}{2}$ S 19 B T. A pinon pine, 14 ins. diam., bears S. 86° W., 56 lks. dist., marked $\frac{1}{4}$ S 24 B T.
71.00	Leave timber and enter dense undergrowth, bears E. and W..
72.50	Old Heber-Vernal road, bears E. and W.
73.00	Bottom of hollow, 300 ft. below sec. cor., course E. Ascend .
78.00	Leave undergrowth, and enter heavy timber, bears E.. and W..
80.00	Set a sandstone, 18x8x8 ins., 12 ins. in the ground, for cor. of secs. 13, 18, 19, and 24, marked with 3 notches on N. and 3 notches on S. edges; from which A pinon pine, 14 ins. diam., bears N. 40° E., 107 lks. dist., marked T 3 S R 6 W S 18 B T. A cedar, 24 ins. diam., bears S. 65° E., 185 lks. . dist. marked T 3 S R 6 W S 19 B T. A cedar, 14 ins. diam., bears S. 75° W., 177 lks. dist., marked T 3 S R 7 W S 24 B T. A cedar, 8 ins. diam., bears N. 3° W., 37 lks. . dist. marked T 3 S R 7 W S 13 B T. Land, mountainous..
	Soil, gravelly; 3rd rate.
	Timber; cedar and pinon pine.
	Undergrowth, sagebrush.
	Good grass for grazing.

## GENERAL DESCRIPTION.

This township is very rough and mountainous in the northern part, nearly level in the central part, and rolling and broken in the southern part.

The township is well timbered, but is without water.

It is well adapted for winter and spring grazing. It should be subdivided.

U.S. Deputy Surveyor.

October 28, 1903.

# FINAL OATH OF UNITED STATES DEPUTY SURVEYOR.

United States Deputy Surveyor

I, John W. Rutherford, United States Deputy Surveyor, do solemnly swear that, in pursuance of a contract received from the United States Surveyor General for the survey of the West and North Edys, Tp. No. 3, Range No. 6 West, of the Uintah Special Range and Meridian, Utah, I have well, faithfully, and truly, in my proper person, and in strict conformity with the instructions furnished by the United States Surveyor General for the survey of the West and North Edys, Tp. No. 3, Range No. 6 West, of the Uintah Special Range and Meridian, Utah, surveyed all those parts or portions of

For final affidavits see book Z<sup>o</sup> pp. 35, R. 791

the survey of the West and North Edys, Tp. No. 3, Range No. 6 West, of the Uintah Special Range and Meridian, in the township of, which are represented by the foregoing field notes as having been surveyed by me, and under my direction; and I do further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the United States Surveyor General for the survey of the West and North Edys, Tp. No. 3, Range No. 6 West, of the Uintah Special Range and Meridian, Utah, and in the specific manner described in the field notes, and that the foregoing are the original field notes of such survey; and should any fraud be detected, I will incur the penalty of perjury under the provisions of an Act of Congress approved August 8, 1846.

United States Deputy Surveyor

Subscribed by said John W. Rutherford, and sworn to before me }  
this 22 day of July, 1891. }

## APPROVAL.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

Salt Lake City, Utah, August 22, 1891.

The foregoing field notes of the survey of the West and North Edys, Tp. No. 3, Range No. 6 West, of the Uintah Special Range and Meridian, Utah,

executed by John W. Rutherford, and Andrew J. Stewart, Jr. and Alfred L. Booth, under contract No. 370, dated July 22, 1891, having been critically examined, and the necessary corrections and explanations made, the said field notes, and survey they describe, are hereby approved.

  
Edward M. Rutherford  
United States Surveyor

I certify that the foregoing transcript of the field notes of the above-described survey, in one copy, has been correctly copied from the original notes on file in this office.

Subdivision of T.3 S., R.6 W.-.

Chains Survey commenced October 28, 1903, and executed with a W. and L.E. Gurley light mountain transit, No. 1, with solar attachment. The horizontal limb is provided with two double verniers placed opposite to each other, reading to single minutes of arc; which is also the least count of the latitude and declination arcs. The instrument was examined, tested on the meridian, at Salt Lake City, found correct, and was approved by the surveyor general for Utah, on August 10, 1903. I examine the adjustments of the instrument and correct the level and collimation errors; then, to test the solar apparatus by comparing its indications resulting from solar observations made during p.m. and a.m. hours, with a meridian, established by observation on Polaris; I proceed as follows:

At the cor. of secs. 1, 2, 35, and 36, on S. bdy. of T., latitude  $40^{\circ} 10' 41'' N.$ , longitude  $110^{\circ} 33' 15'' W.$ , I set off  $40^{\circ} 11' N.$ , on the lat. arc;  $12^{\circ} 55' S.$ , on the decl. arc; and at 4 h 3 m p.m., l.m.t., I determine a meridian with the solar, and mark a point thereof on a stone firmly set in the ground, 5.00 chs. N. of the cor.

At 5 h 5 m p.m., l.m.t., I observe Polaris at eastern elongation, in accordance with the Manual, and mark a point in the line thus determined, on a peg driven in the ground, 5.00 chs. N. of the cor.

October 28, 1903.

---

October 29, 1903. At 7 h 30 m a.m., l.m.t., I lay off the azimuth of Polaris  $1^{\circ} 34.8'$  to the west, and mark the meridian thus determined, by cutting a small groove in the stone already set 5.00 chs. N. of the cor.; this mark falls .029 ins. east of the meridian

Subdivision of T. 3 S., R. 6 W -Continued

Chains	determined with the solar.  At 8 h 2 m p.m., I set off $40^{\circ} 11' N.$ , on the lat. arc; $13^{\circ} 9' S.$ , on the decl. arc; and mark the meridian, determined with the solar, by a cross on the stone already set 5.00 chs. N. of the cor.; this mark falls 0.32 ins. east of the meridian established by Polaris observation.  The solar apparatus by p.m. and a.m. observations defines positions for meridian, respectively about $0' 15''$ west and $0' 17''$ east of the meridian established by the Polaris observation; therefore I conclude that the adjustments of the instrument are satisfactory.  The magnetic bearing of the meridian at 8 h 30 m a.m., is N. $16^{\circ} 40' W.$ , the angle thus determined, gives the mag. decl. $16^{\circ} 40' E.$
	From the cor. of secs. 1, 2, 35, and 36, on S. bdy. of Tp., I run  N. $0^{\circ} 1' W.$ , bet. secs. 35 and 36.  Over mountainous land; through heavy timber.  Descend .
8.25	Bottom of hollow, 50 ft. below sec. cor., course E.  Ascend .
14.25	Top of spur, 50 ft. above hollow, bears E. and W.  Descend .
30.00	Leave heavy and enter scattering timber, bears E. and W.
40.00	Set a limestone, $14 \times 12 \frac{1}{2} \times 4$ ins., 9 ins. in the ground, for $\frac{1}{2}$ sec. cor., marked $\frac{1}{2}$ on W. face; and raise a mound of stone, 2 ft. base, $1\frac{1}{2}$ ft. high, W. of cor.
46.50	Bottom of hollow, 50 ft. below ridge, course N. $60^{\circ} E.$  Ascend .

- Chains Mountainous or heavily timbered land, or land covered with dense undergrowth, 79.90 chs.
- 
- N.0° 2' W., bet. secs. 21 and 22.
- Over rolling mesa; and through Scattering timber and dense undergrowth.
- 35.00 Leave timber, bears E. and W.
- 40.00 Set a sandstone, 24x18x8 ins., 18 ins. in the ground, for  $\frac{1}{4}$  sec. cor., marked  $\frac{1}{4}$  on W. face; and raise a mound of stone, 2 ft. base,  $1\frac{1}{2}$  ft. high, W. of cor.
- 42.00 Old Heber-Vernal road, bears E. and W.
- 45.25 Wash, 10 lks. wide, 2 ft. deep, course E.
- 80.00 Set a sandstone, 14x12x7 ins., 9 ins. in the ground, for cor. of secs. 15, 16, 21, and 22, marked 3 S on NE; and 6 W on SE faces; with 3 notches on S., and E. edges; dig pits, 18x18x12 ins., in each sec.;  $5\frac{1}{2}$  ft. dist.; and raise a mound of earth, 4 ft. base, 2 ft. high, W. of cor.
- Land, rolling mesa.
- Soil, clay and sandy loam; 2nd rate.
- Timber, cedar and pinon pine.
- Undergrowth, sage brush and shadscales.
- Good grass for grazing.
- Land covered with dense undergrowth, 80.00 chs.
- November 2, 1903: At this cor. I set off 40° 13' N., on the lat. arc; 14° 34' S., on the decl. arc; and at 4 h 3 m p.m., l.m.t., I determine a meridian with the solar, and mark a point thereof on a stone firmly set in the ground, 5.00 chs. N. of the cor.

November 2, 1903.

---

November 3, 1903: At 4 h 35 m, a m l.m.t., I observe

## Subdivision of T. 3 S. R 6 W -Continued

	Polaris at western elongation ,in accordance with the Manual, and mark a point in the line thus determined, on a peg driven in the ground, 5.00 chs. <sup>N</sup> of the cor. At 7 h 33 m a.m., l.m.t., I lay off the azimuth of Polaris $1^{\circ} 34.8'$ to the east, and mark the meridian thus determined, by cutting a small groove in the stone already set 5.00 chs. N. of the cor.; this mark falls .29 ins. east of the mark determined with the solar.
	At 8 h 2 m a.m., l.m.t., I set off $40^{\circ} 13'N.$ , on the lat. arc; $14^{\circ} 46'S.$ , on the decl. arc; and mark the meridian determined with the solar, by a cross on the stone already set 5.00 chs. N. of the cor.; on which it falls 0.37 ins. east of the meridian established by Polaris observation.
	The solar apparatus by p.m. and a.m. observations defines positions for meridians, respectively about $0'15''$ west and $0'19''$ east of the meridian established by Polaris observation; therefore I conclude that the adjustments of the instrument are satisfactory. The magnetic bearing of the meridian at 8 h 30 m a. m., is $N. 16^{\circ} 40'W.$ , the angle thus determined gives the mag. decl. $16^{\circ} 40'E.$
	Thence I run $N. 89^{\circ} 55'E.$ , on a random line bet. secs. 15 and 22.
40.00	Set temp., $\frac{1}{4}$ sec. cor.
80.10	Intersect N. and S. line, 16 lks. S. of the cor. of secs. 14, 15, 22, and 23.
	Thence I run $S. 89^{\circ} 48'W.$ , on a true line bet. secs. 15 and 22. Over mountainous land; through heavy timber and dense

Land, mountainous .  
Soil, gravelly and rocky; 3rd and 4th rate.  
Timber, cedar and pinon pine .  
Good grass for grazing.  
Mountainous or heavily timbered land, 79.90 chs.
- 
- N.  $0^{\circ}3'W.$ , on a random line bet. secs. 4 and 5.
- 40.00 Set temp.  $\frac{1}{4}$  sec.cor.
- 80.32 Intersect N.bdy.of T., 16 lks.S.  $89^{\circ}57'W.$  of cor.of secs.

## Subdivision of T. 3 S., R. 6 W.-Continued

Chains	4, 5, 32, and 33, heretofore described.
	Thence I run S. 0° 4' W., on a true line bet. secs. 4 and 5. Over mountainous land through scattering timber. Descend abruptly over ledges from 20 ft. to 50 ft. high.
10.00	Bottom of hollow, 350 ft. below sec. cor., course S. 65° E. Ascend abruptly over ledges.
19.00	Top of spur, 250 ft. above hollow, bears N. 65° W. and S. 65° E. Descend abruptly over ledges.
28.00	Bottom of hollow, 300 ft. below spur, course S. 65° E. Ascend over ledges.
40.32	Set a sandstone, 18x12x10 ins. 12 ins. in the ground, for $\frac{1}{4}$ sec. cor., marked $\frac{1}{4}$ on W. face; from which A pinon pine, 4 ins. diam., bears S. 40° E., 50 lks. dist., marked $\frac{1}{4}$ S. 4 B T. A pinon pine, 12 ins. diam., bears N. 45° W., 35 lks. dist., marked $\frac{1}{4}$ S. 5 B T.
68.00	Top of ridge, 500 ft. above hollow, bears N. 10° W. and S. 10° E. Descend gradually. Enter heavy timber, bears N. 10° W. and S. 10° E.
80.32	The cor. of secs. 4, 5, 8, and 9. Land, mountainous. Soil, rocky; 4th rate. Timber, cedar and pinon pine. Good grass for grazing. Mountainous or heavily timbered land, 80.32 chs.

November 5, 1903.

November 6, 1903. At 8 h 4 m a.m., l.m.t., I set off

C. A. C.

Subdivision of T 3 S R 6 W -Continued.

- Chains 40° 11' N., on the lat.arc; 15° 42' S., on the decl.arc; and determine a meridian, with the solar, at the cor. of secs. 5, 6, 31, and 32, on S. bdy. of Tp., heretofore described.
- Thence I run  
N. 0° 4' W., bet. secs. 31 and 32.  
Over mountainous land; through scattering timber.
- Ascend .
- 24.00 Top of ridge, 40 ft. above sec. cor., bears E. and W.  
Descend .
- 40.00 Set a sandstone, 18x12x4 ins., 12 ins. in. the ground, for  $\frac{1}{4}$  sec. cor., marked  $\frac{1}{4}$  on W. face; from which  
A pinon pine, 10 ins. diam., bears N. 55° E., 3 lks. dist., marked  $\frac{1}{4}$  S. 32 B T.  
A pinon pine, 3 ins. diam., bears N. 85° W., 48 lks. dist., marked  $\frac{1}{4}$  S. 31 B T.
- 48.00 Bottom of hollow, 100 ft. below ridge, course N. 70° E.  
Ascend .
- 57.75 Foot of sandstone ledge, 15 ft. high, bears N. 50° E. and S. 50° W.
- 59.50 Top of ridge, 75 ft. above hollow, bears N. 50° E. and S. 50° W.  
Descend .
- 66.50 Heber-Vernal road, bears E. and W. In bottom of hollow, 40 ft. below ridge course E.  
Ascend .
- 80.00 Set a sandstone, 18x10x10 ins., 12 ins. in. the ground, for cor. of secs. 29, 30, 31, and 32, marked with 1 notch on S. and 5 notches on E. edges; from which  
A pinon pine, 10 ins. diam., bears N. 63° E., 126 lks. dist., marked T 3 S R 6 W S 29 B T.  
A pinon pine, 14 ins. diam., bears S. 54° E., 85 lks. dist., marked T 3 S R 6 W S 32 B T.  
A cedar, 8 ins. diam., bears S. 65° W., 74 lks. dist., marked T 3 S R 6 W S 31 B T.

## Subdivision of T 3 S R 6 W -Continued

Chains	A pinon pine, 12 ins. diam., bears N. 10° W., 90 lks. dist., marked T 3 S R 6 W S 30 B T.
	Land, mountainous.
	Soil, sandy and gravelly loam; 2nd rate.
	Timber, cedar and pinon pine.
	Good grass for grazing.
	Mountainous land, 80.00 chs.
	East, on a random line bet. secs. 29 and 32.
40.00	Set temp. $\frac{1}{4}$ sec. cor.
80.18	Intersect N. and S. line, 7 lks. N. of the cor. of secs. 28, 29, 32, and 33.
	Thence I run.
	N. 89° 57' W., on a true line bet. secs. 29 and 32.
	Over mountainous land; through heavy timber.
	Ascend.
25.00	Top of ascent, 150 ft. above sec. cor., bears N. and S.
	Thence over mesa.
40.09	Set a sandstone, 18x12x3 ins.; 12 ins. in the ground, for $\frac{1}{4}$ sec. cor., marked $\frac{1}{4}$ on N. face; from which
	A pinon pine, 10 ins. diam., bears N. 5° E., 54 lks. dist., marked $\frac{1}{4}$ S 29 B T.
	A pinon pine, 11 ins. diam., bears S. 26 lks. dist. marked $\frac{1}{4}$ S 32 B T.
63.00	Leave mesa, bears N. 65° W. and S. 65° E.
	Descend.
80.18	The cor. of secs. 29, 30, 31, and 32.
	Land, mountainous. and level.
	Soil, sandy and rocky; 2nd and 4th rate.
	Timber, cedar and pinon pine.
	Good grass for grazing.
	Mountainous or heavily timbered land, 80.18 chs.

40 BOOK A-3-8

Subdivision of T. 3 S., R. 6 W. -Continued

Chains	
	West, on a random line bet. secs. 30 and 31.
40.00	Set temp. $\frac{1}{4}$ sec cor.
78.60	Intersect W. bdy. of Tp., 14 lks. N. of the cor. of secs. 25, 30, 31, and 36. Thence I run N. 89° 54' E., on a true line bet. secs. 30 and 31. Over mountainous land; through heavy timber. Descehd gradually .
38.60	Set a sandstone, 16x12x4 ins., 11 ins. in the ground, for $\frac{1}{4}$ sec. cor., marked $\frac{1}{4}$ on N. face; from which A pinon pine, 13 ins. diam., bears N. 4° W., 48 lks. dist., marked $\frac{1}{4}$ S 30 B T. A pinon pine, 15 ins. diam., bears S. 45° W., 55 lks. dist., marked $\frac{1}{4}$ S 31 B T.
78.60	The cor. of secs. 29, 30, 31, and 32. Land, mountainous. Soil, sandy and gravelly; 2nd and 3rd rate. Timber, cedar and pinon pine. Good grass for grazing.. Mountainous or heavily timbered land, 78.60 chs . November 6, 1903: At. this cor. I set off 15° 47' S., on the decl. arc; and at 0 h 2 m p.m., l.m.t., I observe the sun on the meridian, the resulating lat. is 40° 12' N., which is the proper lat. nearly.
	<hr/>
	N. 0° 4' W., bet. secs. 29 and 30. Over mountainous land; through heavy timber. Ascend .
3.50	Top of ascent, 25 ft. above sec. cor., bears E. and W.. Thence over mesa.
38.00	Leave mesa, bears N. 60° E. and S. 60° W. Descend ..
40.00	Set a sandstone, 16x8x6 ins., 11 ins. in the ground,

Subdivision of T. 3 S., R. 6 W.-Continued.

	Chains for $\frac{1}{4}$ sec.cor., marked $\frac{1}{2}$ on W.face; from which

## GENERAL DESCRIPTION.

This township is rolling in the southern part; mesa in the central part and very rough and ledgy in the northern part. And the soil ranges from sandy loam to stony ground. The soil on the mesas is generally sandy loam; 2nd rate; the rolling mountains in the southern part are, in general, sandy and gravelly; 2nd and 3rd rate.; while the northern part is mostly rocky; 4th rate.

There is no water in the township ;but it is well adapted for winter and early spring grazing .

There are no settlers in the township.

There is no mineral in the township.

There is a heavy growth of cedar and pinon pine timber on almost the entire township.

## APPROVAL.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

Salt Lake City, Utah, August 22,

The foregoing field notes of the survey of the Subdivisional lines of Township No. 3 South, Range No. 6 West of the Uintah Special Base and Meridian, Utah,

executed by Andrew J. Stewart Jr. and Alfred L. Booth  
under their contract No. 370, dated July 22, 1903, having been critically examined, and the necessary corrections and explanations made, the said field notes, a transcript of which is hereto attached, are hereby approved.

*Edward H. Rutherford*  
United States Surveyor

I certify that the foregoing transcript of the field notes of the above-described surveys in \_\_\_\_\_, has been correctly copied from the original notes on file in this office.

## Corrective Notes of

Subdivision of T 3 S R 6 W -

Survey commenced April 27, 1905, and executed with a W. and L.E. Gurley light mountain transit, No. --, with solar attachment. The horizontal limb is provided with two double verniers placed opposite to each other, reading to single minutes of arc; which is also the least count of the verniers of the latitude and declination arcs.

The instrument was examined, tested on the meridian at Salt Lake City, found correct, and was approved by the surveyor general for Utah, on April 1, 1905.

I examine the adjustments of the instrument and correct the level and collimation errors; then, to test the solar apparatus by comparing its indications resulting from solar observations made during p.m. and a.m. hours with a meridian established by observation on Polaris, I proceed as follows:

At the cor. of secs. 1, 2, 35, and 36, on S.bdy. of Tp., latitude  $40^{\circ} 10' 41''$  N., longitude  $110^{\circ} 33' 15''$  W., I set off  $40^{\circ} 11'$  N., on the lat.arc;  $13^{\circ} 51'$  N., on the decl.arc; and at 3 h 2 m p.m., l.m.t., I determine a meridian with the solar, and mark a point thereof on a stone, firmly set, in the ground, 5.00 chs. N. of the cor.

April 27, 1905.

April 28, 1905: At 5 h 53m a.m., l.m.t., I observe Polaris at eastern elongation in accordance with the Manual, and mark a point in the line thus determined on a wooden plug driven in the ground, 5.00 chs. N. of the cor.

At 6 h 58 m a.m., l.m.t., I lay off the azimuth of Polaris  $1^{\circ} 34'$  to the west, and mark a point in the meridian thus determined by cutting a small groove in the stone, already set 5.00 chs. N. of the cor.; this mark falls 0.37 ins. east of the meridian established by the solar.

2  
Corrective Notes of

Subdivision of T.3 S., R.6 W.-Continued.

Chs. At 7 h 2 m a.m., l.m.t., I set off  $40^{\circ} 11' N.$ , on the lat. arc.  $14^{\circ} 05' N.$ , on the decl. arc; and mark the meridian determined with the solar, by a cross on the stone, already set 5.00 chs. N. of the cor.; this mark falls 0.38 ins. east of the meridian established by Polaris observation. The solar apparatus by p.m. and a.m. observations defines positions for meridians respectively about  $0' 19''$  west and  $0' 20''$  east of the meridian established by observation on Polaris; therefore I conclude that the adjustments of the instrument are satisfactory.  
The magnetic bearing of the meridian at 7 h 30 m a.m. is  $N.16^{\circ} 40' W.$ , the angle thus determined gives the mag. decl.  $16^{\circ} 40' E.$ ,

From the cor. of secs. 1, 2, 35, and 36, on S. bdy. of Tp., which is a sandstone,  $5 \times 12 \times 4$  ins., above ground, firmly set, and mkd. and witnessed as described in the original field notes.

Thence I run

$N.0^{\circ} 1' W$  bet. secs. 35 and 36.

40.00 The  $\pi$  sec. cor. bet. secs. 35 and 36, on line, described properly in the original field notes.

80.40 The cor. of secs. 25, 26, 35, and 36, on line.

I move the cor. 40 lks. S. and

Set a sandstone,  $18 \times 6 \times 6$  ins., 12 ins. in the ground, for cor. of secs. 25, 26, 35, and 36, mkd. with 1 notch on S., and E. edges; from which

A pinon pine, 6 ins. dia., bears  $N.51^{\circ} E.$ , 33 lks. dist.. mkd. T 3 S R 6 W S 25 B T.

A pinon pine, 9 ins. dia., bears S.  $20^{\circ} 30' E.$ , 30 lks. dist.. mkd. T 3 SR 6 W E 36 B T.

A pinon pine, 14 ins. dia., bears S.  $74^{\circ} 45' W.$ , 126 lks. dist.. mkd. T 3 S R 6 W S 35 B T.

Subscribed and sworn to before me this ..... }  
day of ..... , 190 } .

West boundary of T. 2 S. R 6 W

Chains Survey commenced October 28, 1903: And executed with a Young and Sons light mountain transit, No. 7381, with solar attachment. The horizontal limb is provided with two double verniers placed opposite to each other, reading to single minutes of arc; which is also the least count of the latitude and declination arcs.

The instrument was examined, tested on the meridian, at Salt Lake City, found correct, and was approved by the surveyor general for Utah, on August 21, 1903.

I examine the adjustments of the instrument, and correct the level and collimation errors; then, to test the solar apparatus by comparing its indications resulting from solar observations made during p.m. and a.m. hours, with a meridian established by Polaris observation, I proceed as follows:

At the cor. of Tps. 2 and 3 S., Rs. 6 and 7 W., latitude  $40^{\circ} 15' 54''$  N., longitude  $110^{\circ} 38' 54''$  W., I set off  $40^{\circ} 16'$  N. on the lat. arc;  $12^{\circ} 55' S.$ , on the decl. arc; and at 4 h 3 m p.m., l.m.t., determine with the solar, a meridian, and mark a point thereof on a stone set firmly in the ground, 5.00 chs. N. of the cor.

At 5 h 5 m p.m., l.m.t., I observe Polaris at eastern elongation in accordance with the manual, and mark a point in the line thus determined, on a peg driven in the ground, 5.00 chs. N. of the cor.

October 28, 1903.

---

October 28, 1903. At 7 h 30 m a.m., l.m.t., I lay off the azimuth of Polaris  $1^{\circ} 34.8'$  to the west, and mark the meridian thus determined, by cutting a groove in the stone already set 5.00 chs. N. of the cor.; this mark falls 0.36 ins. east of the meridian determined with the solar.

West boundary of T. 2 S., R. 6 W.-Continued

Chains At 8 h 3 m a.m., l.m.t., I set off  $40^{\circ} 16' N.$ , on the lat. arc;  $13^{\circ} 9' S.$ , on the decl. arc; and mark the meridian, determined, with the solar, by a cross on the stone already set 5.00 chs. N. of the cor.; this mark falls 0.4 ins. east of the meridian established by Polaris observation.  
 The solar apparatus by p.m. and a.m. observations, defines positions for meridians respectively about  $0' 19''$  west and  $0' 21''$  East of the meridian established by Polaris observation; therefore I. conclude that the adjustments of the instrument are satisfactory.  
 - The magnetic bearing of the meridian, at 8 h 30 m a.m. is  $N. 16^{\circ} 42' W.$ , the angle thus determined, gives the mag. decl.  $16^{\circ} 42' E.$

North, bet. secs. 31 and 36.

Over mountainous land; through heavy timber.

Ascend abruptly over ledges from 10 ft. to 50 ft. high.

- 18.00 Top of ridge, 600 ft. above sec. cor., bears E. and W.  
 Descend over ledges .
- 38.00 Bottom of hollow, 450 ft. below ridge, course W.  
 Ascend over ledges. . .
- 40.00 Set a sandstone, 18x11x4 ins., 12 ins. in the ground, for  $\frac{1}{2}$  sec. cor., marked  $\frac{1}{2}$  on W. face; from which  
     A pinon pine, 8 ins. diam., bears  $N. 65^{\circ} E.$ , 34 lks. dist., marked  $\frac{1}{2}$  S 31 B T.  
     A pinon pine, 7 ins. diam., bears  $S. 70^{\circ} W.$ , 42 lks. dist., marked  $\frac{1}{2}$  S 36 B T.
- 50.00 Top of spur, 200 ft. above hollow, projects W.  
 Descend over ledges.
- 55.00 Bottom of hollow, 250 ft. below spur, course  $S. 80^{\circ} W.$   
 Ascend over ledges.

## West boundary of T 2 S .R 6 W.-Continued.

Chains

- 80.00 Set a sandstone, 18x12x4 ins., 12 ins. in the ground, for cor. of secs. 25, 30, 31, and 36, marked with 5 notches on N. and 1 notch on S. edges; from which
- A pinon pine, 10 ins. diam., bears N. 20° E., 30 lks. dist., marked T 2 S. R 6 W S 30 B T.
- A pinon pine, 8 ins. diam., bears S. 60° E., 70 lks. dist., marked T 2 S. R 6 W S 31 B T
- A cedar, 14 in. diam., bears S. 40° W., 30 lks. dist., marked T 2 S R 7 W S 36 B T.
- A pinon pine, 10 ins. diam., bears N. 30° W., 25 lks. dist., marked T 2 S. R 7 W S 25 B T.

Land, mountainous.

Soil, gravelly and rocky; 3rd and 4th rate.

Timber, cedar and pinon pine.

Good grass for grazing.

Mountainous or heavily timbered land, 80.00 chs.

North, bet. secs. 25 and 30.

Over mountainous land; through heavy timber.

Ascend abruptly over ledges from 10 ft. to 100 ft. high.

- 8.00 Top of divide ridge, between Strawberry and DuChesne River systems, 400 ft. above sec. cor., bears E. and W. Descend gradually. Leave ledges.

- 40.00 Set a sandstone, 16x9x6 ins., 11 ins. in the ground, for  $\frac{1}{4}$  sec. cor., marked  $\frac{\pi}{4}$  on W. face; from which
- A pinon pine, 8 ins. diam., bears S. 85° E., 98 lks. dist., marked  $\frac{\pi}{4}$  S 30 B T.
- A pinon pine, 10 ins. diam., bears S. 80° W., 120 lks. dist., marked  $\frac{\pi}{4}$  S 25 B T.

- 57.00 Bottom of hollow, 300 ft. below ridge, course E. Ascend.

- 65.00 Top of ridge, 100 ft. above hollow, bears NE and SW.

West boundary of T 2 S R.6 W.-Continued.

Chains	Descend.
80.00	<p>Set a sandstone, 18x8x6 ins., 12 ins. in the ground, for cor. of secs. 19, 24, 25, and 30, marked with 4 notches on N. and 2 notches on S. edges; from which</p> <p>A pinon pine, 6 ins. diam., bears N. 44° E., 110 lks. dist., marked T 2 S. 50.00	<p>Begin rapid descent toward DuChesne River, bears N. 80° E. and S. 80° W..</p>
77.00	<p>Foot of descent, 1000 ft., below sec. cor., bears E. and W.</p> <p>Leave cedar and pinon pine timber and enter scattering cottonwood timber and dense undergrowth of sage and rabbit brush, bears E. and W.</p>

5

West boundary of T. 2 S., R. 6 -Continued.

Chains Enter bottom of DuChesne River Canon. . ,

80.00 Set a sandstone, 18x10x7 ins., 12 ins. in the ground,  
for cor. of secs. 13, 18, 19, and 24, marked with 3  
notches on N. and 3 notches on S. edges; from which  
A cottonwood, 8 ins. diam., bears N. 20° E., .  
175 lks. dist., marked T 2 S R 6 W S 18 B T.  
A cottonwood, 6 ins. diam., bears S. 45° E., 88  
lks. dist., marked T 2 S R 6 W S 19 B T.  
A cottonwood, 6 ins. diam., bears S. 84° W., 22  
lks. dist., marked T 2 S R 7 W S 24 B T.  
A cottonwood, 10 ins. diam., bears N. 39° W., 90  
lks. dist., marked T 2 S R 7 W S 13 B T.

Land, mountainous and level .

Soil, sandy loam and rocky ; 2nd and 4th rate.

Timber, cedar, pinon pine, and cottonwood.

Undergrowth, sage and rabbit brush.

Good grass for grazing.

Mountainous or heavily timbered land, or land covered  
with dense undergrowth, 80.00 chs.

October 29, 1903: At this cor. I set off 13° 14' S., on the  
decl. arc; and at 0 h 2 m p.m., l.m.t., I observe the  
sun on the meridian, the resulting lat. is 40° 19' N.

---

North, bet. secs. 13 and 18.

Over level canon bottom; through scattering cotton-  
wood timber and dense sage and rabbit brush.

.30 Enter dense willows, hull berry brush, rose bushes,  
and haws, bears E. and W..

5.75 Right bank of the DuChesne River, rocky bottom, rapid  
current, 1 ft. deep, course E.

6.75 Left bank of DuChesne River.

7.50 Leave timber and willows, bullberry brush, rose  
bushes, and haws, and enter dense sage and rabbit

West boundary of T. 2 S., R. 6 W. -Continued.

Chains	brush, bears E. and W.
12.40	Enter cottonwood timber, bears E. and W.
13.00	Leave timber, bears E. and W.
19.50	Heber-Vernal road, bears E. and W..
22.00	Leave undergrowth and enter heavy timber, bears E. and W.
	Leave canon bottom, bears E. and W.
	Ascend abruptly over ledges.
40.00	Set a sandstone, 16x8x4 ins., 11 ins. in the ground, for cor. of sec. 1, marked $\frac{1}{2}$ on W. face; from which a. pinon pine, 8 ins. diam., bears S. 40° E., 29 lks. dist., marked $\frac{1}{2}$ S 18 B T. GENERAL DESCRIPTION.

This township is very rough and precipitous.

It is well watered and well timbered, and well adapted for grazing. It should be subdivided.

*Alfred L. Booth*

U.S. Deputy Surveyor.

October 31, 1903.

**FINAL OATHS OF DEPUTY SURVEYOR AND HIS ASSISTANTS.**

## LIST OF NAMES.

A list of the names of the individuals employed by \_\_\_\_\_  
\_\_\_\_\_, United States Deputy Surveyor, to assist in running, measuring, and  
marking the lines and corners described in the foregoing field notes of the survey of \_\_\_\_\_  
\_\_\_\_\_ showing the respective capacities in which they acted:

For final affidavits see book Z<sup>12</sup> Tp. 2 S R. of W, Chairman.

FINAL OATH OF UNITED STATES DEPUTY SURVEYOR.

I, \_\_\_\_\_, United States Deputy Surveyor,  
do solemnly swear, in presence of a contract received from  
the United States Survey General for \_\_\_\_\_, bearing date of  
\_\_\_\_\_, 190\_\_\_\_\_, I have well, faithfully, and truly, in my  
profession, and in strict conformity with the instructions furnished by the United States Survey  
General for \_\_\_\_\_, the Manual of Surveying Instructions, and the laws of  
the United States, surveyed all the important portions of \_\_\_\_\_.  
Your final affidavit see book Z, pp. 2 & 3, S.R. of Ok.

..... of the  
meridian, in the ..... of ..... which are represented in  
the foregoing notes as having been surveyed by me, and under my direction; and I do further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with  
the Manual of Surveying Instructions, and the special written instructions of the United States Survey  
General for ..... and in the specific manner described in the field notes, and  
the foregoing are the original field notes of such survey; and should any fraud be detected, I will suffer  
the penalty of perjury under the provisions of an Act of Congress approved August 8, 1846.

APPROVAL.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL.

Salt Lake City, Utah, August 22, 1903

The foregoing field notes of the survey of the West and North boundaries of Twp. No. 2 South, Range No. 6 West of the Uintah Special Base and Meridian,  
Utah,

dated July 22, 1903, by Mr. Alfred J. Stewart Jr. and Alfred L. Booth, having  
been examined and found to be correct, after necessary corrections and explanations made, the said field notes, and  
the accompanying sketch, are hereby approved.

*James W. Fielding*  
United States Surveyor Gen.

I, \_\_\_\_\_, do hereby certify that the foregoing transcript of the field notes of the above-described survey is a true copy, and has been correctly copied from the original notes on file in this office.

Subdivision of T 2 S R 6 W

Survey commenced October 31, 1903. And executed with a Young and Sons light mountain transit, No. 7381, with solar attachment. The horizontal limb is provided with two double verniers placed opposite to each other, reading to single minutes of arc; which is also the least count of the latitude and declination arcs.

The instrument was examined, tested on the meridian, at Salt Lake City, found correct, and was approved by the surveyor general for Utah, on August 21, 1903.

I examine the adjustments of the instrument, and correct the level and collimation errors; then, to test the solar apparatus by comparing its indications resulting from solar observations made during p.m. and a.m. hours, with a meridian established by Polaris observation, I proceed as follows:

At the cor. of secs. 1, 2, 35, and 36, on S. bdy. of Tp., latitude  $40^{\circ} 15' 54'' N.$ , longitude  $110^{\circ} 33' 15'' W.$ , I set off  $40^{\circ} 16' N.$ , on the lat. arc;  $13^{\circ} 55' S.$  on the decl. arc; and at 4 h 3 m p.m., l.m.t., determine a meridian with the solar, and mark a point thereof on a stone firmly set in the ground, 5.00 chs. N. of the cor.

At 4 h 53 m p.m., l.m.t., I observe Polaris at eastern elongation, in accordance with the Manual, and mark a point in the line thus determined on a peg driven in the ground, 5.00 chs. N. of cor.

October 31, 1903..

---

November 1, 1903: At 7 h. 30 m a.m., l.m.t., I lay off the azimuth of Polaris  $1^{\circ} 34.8'$  to the west and mark a point in the meridian thus determined, by cutting a small groove in the stone, already set 5.00 chs. N. of the cor.; this mark falls 0.34 ins.

## Subdivision of T 2 S .R 6 W -Continued

Chains east of the mark determined with the solar.  
At 8 h 3 m a.m., l.m.t., I set off  $40^{\circ} 16' N.$ , on the lat. arc;  $14^{\circ} 8' S.$ , on the decl. arc; and mark a point in the meridian determined with the solar, by a cross on the stone already set 5.00 chs. N. of the cor.; this mark falls 0.3 ins. east of the meridian established by observation on Polaris.  
The solar apparatus by p.m. and a.m. observations, defines positions for meridians respectively about  $0^{\circ} 18''$  west and  $0^{\circ} 16''$  east of the meridian established by Polaris observation; therefore I conclude that the adjustments of the instrument are satisfactory.  
The magnetic bearing of the meridian at 8 h 40 m a.m., l.m.t., is  $N. 16^{\circ} 42' W.$ , the angle thus determined, gives the mag. decl.  $16^{\circ} 42' E.$

From the cor. of secs. 1, 2, 35, and 36, on S. bdy. of Tp., heretofore described.

Thence I run

$N. 0^{\circ} 1' W.$ , bet. secs. 35 and 36.

Over mountainous land; through heavy timber.

Ascend abruptly.

15.00 Top of ascent, 100 ft. above sec. cor., bears E. and W.  
Thence over mesa.

Descend gradually.

40.00 Set a sandstone, 16x10x5 ins., 11 ins. in the ground, for  $\frac{1}{2}$  sec. cor., marked  $\frac{1}{2}$  on W. face; from which

A pinon pine, 15 ins. diam., bears  $N. 57^{\circ} 30' E.$ ,

100 lks. dist., marked  $\frac{1}{2}$  S 36 B T

A pinon pine, 5 ins. diam., bears  $S. 82^{\circ} W.$ , 67

lks. dist., marked  $\frac{1}{2}$  S 35 B T.

45.00 Leave mesa, bears NE and SW; Descend abruptly.

80.00 Set a sandstone, 20x12x5 ins., 15 ins. in the ground,

	N.6°2'W., bet.secs. 27 and 28. Over mountainous land; through heavy timber. Descend over ledges.
3.50	Bottom of canon, 100 ft. below sec.cor., course N.60°E Ascend .
27.30	Top of ascent, 1000 ft. above canon ,bears E.and W. Thence over rolling mesa,Leave ledges,bears E.and W.
40.00	Set a sandstone,14x12x6 ins.,9 ins.in the ground, for § sec.cor.,marked $\frac{1}{4}$ on W.face;from which A cedar,6 ins.diam.,bears N.81°E.,76 lks.dist.,marked $\frac{1}{4}$ S 27 B T. A pinon pine,20 ins.diam.,bears N.79°E.,85 lks.dist.,marked $\frac{1}{4}$ S 28 B T.
80.00	Set a sandstone,20x12x5 ins.,15 ins.in the ground, for cor.of secs.21,22,27, and 28,marked with 2 notches on S.and 3 notches on E.edges;from which, A pinon pine,8 ins.diam.,bears N.20°E. ,39 lks.dist.,marked T 2 S R 6 W S 22 B T. A cedar,8 ins.diam.,bears S.30°E.,120 lks. lks.dist.,marked T 2 S R 6 W S 27 B T. A pinon pine,10 ins.diam.,bears S.47°W.,80 lks.dist.,marked T 2 S R 6 W S 28 B T. A cedar,5 ins.diam.,bears N.67°W.,20 lks. lks.dist.,marked T 2 S R 6 W S 21 B T.

## Subdivision of T. 2 S. F. R. 6 W. - Continued.

- Chains** Land, mountainous and rolling mesa.  
 Soil, sandy loam and gravelly; 2nd and 3rd rate.  
 Timber, cedar and pinon pine; good, willow, gray  
 Good grass for grazing.  
 Mountainous or heavily timbered land, 80.00 chs.  
 November 15, 1903. At this cor. I set off  $15^{\circ} 29' S.$ , on  
 the decl. arc; and at 0 h. 2 m. p.m., l.m.t., I observe  
 the sun on the meridian, the resulting lat. is  $40^{\circ} 18' N.$ , which is the proper lat. nearly.  
 East, on a random line bet. secs. 22 and 27.  
 40.00 Set a temp.  $\frac{1}{2}$  sec. cor.  
 79.80 Intersect N. and S. line, 21 lks. S. of the cor. of secs.  
 22, 23, 26, and 27.  
 Thence I run  $S. 69^{\circ} 51' W.$ , on a true line bet. secs. 22 and 27.  
 Over mountainous land; through heavy timber.  
 Ascend.  
 9.00 Top of ascent, 200 ft. above sec. cor.; bears  $N. 150^{\circ} E.$  and  
 $S. 50^{\circ} W.$ .  
 Thence over rolling mesa.  
 39.90 Set a sandstone, 18x9x7 ins.; 12 ins. in the ground,  
 for  $\frac{1}{2}$  sec. cor.; marked  $\frac{1}{2}$  on N. face; from which  
 A pinon pine, 9 ins. diam., bears  $N. 50^{\circ} E.$ , 12  
 lks. dist., marked  $\frac{1}{2} S. 22^{\circ} B.T.$   
 A cedar, 8 ins. diam., bears  $S. 34^{\circ} E.$ , 17 lks.  
 dist., marked  $\frac{1}{2} S. 27^{\circ} B.T.$   
 79.80 The cor. of secs. 21, 22, 27, and 28.  
 Land, mountainous and rolling mesa.  
 Soil, sandy loam and gravelly; 2nd and 3rd rate.  
 Timber, cedar and pinon pine.  
 Good grass for grazing.  
 Mountainous or heavily timbered land, or land covered  
 with dense undergrowth, 79.80 chs.

## Subdivision of J. C. S. R. &amp; I. Company

Chains	
	S. of 2 <sup>nd</sup> W., bet. secs. 21 and 22.
	Over rolling mesa; through heavy timber.
16.00	Leave mesa, bears E. and N.
	Descend abruptly.
40.00	Set a sandstone, 10x10x6 ins., 11 ins. in the ground, for 1 <sup>st</sup> sec. cor., marked $\pm$ on N. face; from which A red pine, 16 ins. diam., bears N. 70° E., .26 lks. dist., marked $\pm$ S 22 B T.
	A cedar, 6 ins. diam. bears N. 35 lks. dist., marked $\pm$ S 21 B T.
64.00	Foot of descent, 1800 ft. below mesa, bears E. and N. Leave timber and enter dense undergrowth, bears E. and N.
	Thence over level canon bottom.
66.00	Heber-Vernal road, bears E. and N.
72.00	Enter scattering cottonwood timber, bears E. and N.
76.00	Right bank of DuCheenne River, rocky bottom, rapid current, course N. 30° E., 3 ft. deep.
78.00	Left bank of River.
80.00	Set a sandstone, 18x12, 6 ins., 12 ins. in the ground, for cor. of secs. 15, 16, 21, and 22, marked 2, S. on NE; N. W. on SE. faces; with 3 notches on S. and 3 notches on on E. edge; dig pits, 10x18x12 ins., in each sec., 5 $\frac{1}{2}$ ft. dist; and raise a mound of earth, 4 ft. base, 2 ft. high, E. of cor.
	Land, mountainous and level.
	Soil, sandy loam and rocky; 2nd and 4th rate.
	Timber, cedar, pinon pine, and cottonwood.
	Undergrowth, sage, brush, willows, rose bushes, and rabbit brush.
	Good grass for grazing.
	Mountainous or heavily timbered land, or land covered with dense undergrowth, \$6.00 cha.

Good grass for grazing. Mountainous or heavily timbered land or land covered with dense undergrowth, 80.00 chs. November 9, 1903: At this cor. I set off 16° 40' S., on the decl. arc; and at 0 h 2 m p.m., l.m.t., I observe the sun on the meridian, the resulting lat. is 40° 18' N., which is the proper lat. nearly.
40.00	N. 89° 53' E., on a random line bet. secs. 20 and 29.
79.82	Set temp. $\frac{1}{2}$ sec. cor.
	Intersect N. and S. line, 4 lks. N. of the cor. of secs. 20, 21, 28, and 29.
	Thence I run

Subdivision of T. 2 S., R. 6 W. -Continued

	S. 89° 55' W., on a true line bet. secs. 20 and 29.
Chains .	Over mountainous land; through heavy timber.
	Ascend .
38.00	Top of spur, 100 ft. above sec.cor., projects N.W. by 15° W.E.
	Descend .
39.91	Set a sandstone, 18x10x8 ins., 12 ins. in the ground, for $\frac{1}{4}$ sec.cor., marked $\frac{1}{4}$ on N. face; from which A pinon pine, 11 ins. diam., bears N. 25° W., 25 lks. dist., marked $\frac{1}{4}$ S 20 B T. A pinon pine, 14 ins. diam., bears S. 10° E., 20 lks. dist., marked $\frac{1}{4}$ S 29 B T.
55.00	Begin steep descent, bears N. and S.
70.50	Bottom of hollow, 400 ft. below ridge, course N. 30° W.
	Ascend .
79.82	The cor. of secs. 19, 20, 29, and 30.  Land, mountainous. Soil, gravelly; 3rd rate. Timber, cedar and pinon pine. Good grass for grazing. Mountainous or heavily timbered land, 79.82 chs.
	<hr/>
	S. 89° 57' W., on a random line bet. secs. 19 and 30.
40.00	Set temp. $\frac{1}{4}$ sec.cor.
77.54	Intersect W.bdy. of Tps., 7 lks.S. of the cor. of secs. 19, 24, 25, and 30, heretofore described.  Thence I run  East, on a true line bet. secs. 19 and 30. Over mountainous land; through heavy timber. Ascend .
1.90	Top of ridge, 15 ft. above sec.cor., bears N. 30° E., and South. Descend .

## Division of T 2 S R 7 W continued

Chains	
27.00	Bottom of hollow, 500 ft. below ridge, course N.40° E.
	Ascend .
37.54	Set a sandstone, 18x10x8 ins., 12 ins. in the ground, for $\frac{1}{2}$ sec.cor., marked $\frac{1}{4}$ on N.face; from which A red pine, 4 ins. diam., bears N., 25 lks. dist., marked $\frac{1}{4}$ S 19 B T. A red pine, 5 ins. diam., bears S., 15 lks. dist., marked $\frac{1}{4}$ S 30 B T.
42.20	Top of spur, 100 ft. above hollow, projects N.20° W., 20° E.
	Descend .
53.00	Bottom of hollow, 200 ft. below spur, course N.40° W..
	Ascend .
72.50	Top of spur, 200 ft. above hollow, projects N.20° E.
	Descend .
77.54	The cor.of secs.19,20,29, and 30. Land, mountainous. Soil, gravelly; 3rd rate. Timber, cedar and pinon pine.. Good grass for grazing. Mountainous or heavily timbered land, 77.54 chs.
	N.0°4'W., bet. secs.19 and 20.
	Over mountainous land; through heavy timber .
	Descend.
35.50	Bottom of hollow, 500 ft. below sec.cor., course N.45° W.
	Ascend .
40.00	Set a sandstone, 20x12x5 ins., 15 ins. in the ground, for $\frac{1}{2}$ sec.cor., marked $\frac{1}{4}$ on W.face; from which A pinon pine, 10 ins. diam., bears S.45°E., 30 lks. dist., marked $\frac{1}{4}$ S 20 B T.

Subdivision of T 2 S R 6 W. -Continued:

Chains	A pinon pine, 14 ins. diam., bears N. 45° W., 20 lks. dist., marked $\frac{1}{4}$ ; S 19 B T.
42.00	Top of spur, 50 ft. above hollow, projects W.
	Descend ..
49.50	Bottom of hollow, 150 ft. below spur, course N. 15° E.
	Ascend gently, along side hill ..
55.00	Descend gently ..
60.00	Enter bottom of DuChesne River Canon, bears N. 70° W. and S. 70° E.
	Leave timber and enter dense undergrowth, bears E. and W.
70.15	Heber-Vernal road, bears E. and W. Enter scattering cottonwoods.
80.00	Set a sandstone, 20x12x6 ins., 15 ins. in the ground, for cor. of secs. 17, 18, 19, and 20, marked with 3 notches on S. and 5 notches on E. edges; from which
	A cottonwood, 10 ins. diam., bears N. 23° E., 57 lks. dist., marked T 2 S R 6 W S 17 B T.
	A cottonwood, 3 ins. diam., bears S. 79° E., 49 lks. dist., marked T 2 S R 6 W S 20 B T.
	A cottonwood, 8 ins. diam., bears N. 15° W., 72 lks. dist., marked T 2 S R 6 W S 18 B T.
	No other trees within limits; and dig a pit, 18x18x12 ins. in sec. 19, $5\frac{1}{2}$ ft. dist; and raise a mound of earth, $\frac{1}{4}$ ft. base, $\frac{1}{2}$ ft. high, W. of cor.
	Land, mountainous and level.
	Soil, sandy loam and gravelly; 2nd and 3rd rate.
	Timber, cedar, pinon pine, and cottonwood, and red pine.
	Undergrowth, sage brush, rabbit brush, and willows.
	Good grass for grazing.
	Mountainous or heavily timbered land, or land covered with dense undergrowth, 80.00 chs.

November 9, 1903.

November 10, 1903: At 8 h 2 m a.m., l.m.t., I set off 40° 19' N., on the lat. arc; 16° 52' S., on the decl. arc;

Subdivision of T. 2 S., R. 6 W.-Continued.

- Chains and determine a meridian, with the solar, at the cor. of secs. 17, 18, 19, and 20.  
Thence I run  
N. 89° 55' E., on a random line bet. secs. 17 and 20.  
40.00 Set temp.  $\frac{1}{2}$  sec. cor.  
79.92 Intersect N. and S. line, 10 lks. N. of the cor. of secs. 16, 17, 20, and 21.  
Thence I run  
S. 89° 59' W., on a true line bet. secs. 17 and 20.  
Over level bottom of DuChesne River Canon; through dense undergrowth..  
.60 Right bank of DuChesne River, moderate current, rocky bottom, 2 ft. deep, course N.  
1.20 Left bank of River.  
9.00 Left bank of DuChesne River, moderate current, rocky bottom, 2 ft. deep, course S. 10° E.  
9.60 Right bank of River.  
15.00 Right bank of river, moderate current, 2 ft. deep, course N. 60° E.  
15.90 Left bank of River.  
39.96 Set a sandstone, 14x8x5 ins., 9 ins. in the ground, for  $\frac{1}{2}$  sec. cor., marked  $\frac{1}{2}$  on N. face; and raise a mound of stone, 2 ft. base, 1 $\frac{1}{2}$  ft. high, N. of cor.  
44.10 Left bank of DuChesne River, moderate current, rocky bottom 1 $\frac{1}{2}$  ft. deep, course S. 60° E.  
45.00 Right bank of River.  
79.92 The cor. of secs. 17, 18, 19, and 20.  
Land, level.  
Soil, sandy loam; 2nd rate.  
No timber.  
Undergrowth, sage brush, greasewood, willows, bull berry brush, rose bushes, and haws.  
Good grass for grazing.  
Land covered with dense undergrowth, 79.92 chs.

Subdivision of T.2 S., R.6 W.-Continued.

Chains	
	West, on a random line bet. secs. 18 and 19.
40.00	Set temp. $\frac{1}{4}$ sec. cor.
77.67	Intersect W. bdy. of Tp., 21 lks. S. of the cor. of secs. 13, 18, 19, and 24, heretofore described.
	Thence I run
	S. 89° 51' E., on a true line bet. secs. 18 and 19.
	Over level bottom of DuChesne River Canon; through dense undergrowth and scattering cottonwood timber.
1.90	Right bank of DuChesne River, rapid Current, rocky bottom, 2 ft. deep, course S. 75° E. Thence along river bed.
10.60	Right bank of DuChesne river.
15.70	Right bank of DuChesne River, rocky bottom, rapid current, 2 ft. deep, course S. 60° E.
16.70	Left bank of DuChesne River.
22.50	Bend in DuChesne River, at this point the river bank bears S. 60° W. and S. 60° E.
34.20	Left bank of DuChesne River, rapid current, rocky bottom, 2 ft. deep, course N. 30° E.
36.00	Right bank of River.
37.67	Set a sandstone, 18x6x5 ins., 12 ins. in the ground, for $\frac{1}{4}$ sec. cor., marked $\frac{1}{4}$ on N. face; and raise a mound of stone, 2 ft. base, $1\frac{1}{2}$ ft. high, N. of cor.
45.90	Right bank of DuChesne River, rapid current, rocky bottom, 2 ft. deep, course S. 70° E.
	Thence along river bed.
50.50	Right bank of DuChesne River, course N.E.
56.12	Heber-Vernal road, bears N. 45° W. and S. 45° E.
77.67	The cor. of secs. 17, 18, 19, and 20. Land, level. Soil, sandy loam; 2nd rate. Timber, scattering cottonwood. Undergrowth, sage brush, greasewoods, willows, rose bushes, bull berry brush, choke cherry, and haws. Good grass, for grazing.

55

Subdivision of T. 2 S., R. 6 W.-Continued

Chains	Land, covered with dense undergrowth, 77.67 chs.
	N. 0° 4' W., bet. secs. 17 and 18.
	Over level bottom of DuChesne River Canon; through dense undergrowth and scattering timber.
7.00	Right bank of DuChesne River, moderate current, rocky bottom, 2½ ft. deep, course E.
7.90	Left bank of River.
11.00	Leave canon bottom, bears E. and W. Leave undergrowth and cottonwood timber and enter scattering cedar and pinon pine timber, bears E. and W. Ascend abruptly over a series of ledges.
40.00	Set a sandstone, 18x10x4 ins., 12 ins. in the ground, for cor. of sec. cor., marked $\frac{1}{2}$ on W. face; from which A pinon pine, 8 ins. diam., bears S. 75° E., 40 lks. dist., marked $\frac{1}{2}$ S 17 B T. A pinon pine, 7 ins. diam., bears S. 75° W., 25 lks. dist., marked $\frac{1}{2}$ S, 18 B T.
80.00	Set a sandstone, 18x9x4 ins., 12 ins. in the ground, for cor. of secs. 7, 8, 17, and 18, marked with 4 notches on S. and 5 notches on E. edges; from which A pinon pine, 11 ins. diam., bears N. 78° E., 50 lks. dist., marked T 2 S R 6 W S 8 B T. A pinon pine, 11 ins. diam., bears S. 44° E., 35 lks. dist., marked T 2 S R 6 W S 17 B T. A pinon pine, 12 ins. diam., bears S. 19° W., 42 lks. dist., marked T 2 S R 6 W S 18 B T. A pinon pine, 8 ins. diam., bears N. 52° W., 60 lks. dist., marked T 2 SR 6 W S 7 B T.
	Land, mountainous and level. Soil, sandy loam in bottom of canon, and rocky on mountain side; 2nd and 4th rate. Timber, cedar, pinon pine, and cottonwood.

11 a.m. November 11, 1903.

---

GENERAL DESCRIPTION.

This entire township is extremely rough and precipitous, with the exception of two or three mesas.

The soil on the mesas and in the bottom of DuChesne River Canon is generally sandy loam; 2nd rate, and the remainder of the township is generally gravelly and rocky; 3rd and 4th rate.

The DuChesne River, which has an average width of 75 lks. and an average depth of 2 ft. flows through the central part of the township from west to east. Rock Creek, which is about 60 lks. wide and 1½ ft.

deep. runs through the eastern part of secs.1 and 12.

There is a little cultivated land in sec.24, owned by an Indian ( name unknown ).

There are no settlers in the township.

There is no mineral in the township.

There is a heavy growth of cedar and pinon pine timber all over the township, and some cottonwood

Subdivision of T 2 S R 6 W -Continued

Chains timber along the DuChesne River and Rock Creek.  
The bottom of DuChesne River and Rock Creek Canons  
is covered with a very dense growth of willows, sage  
brush, rose bushes, bull berry brush, greasewoods,  
rabbit brush, and haws.  
There is an abundant growth of rich and nutritious  
grasses all over the township..

Corrective Notes of

Subdivision of T 2 S .R 6 W -

Survey commenced May 1, 1905, and executed with a W. and L.E. Gurley light mountain transit, No.- with solar attachment. The horizontal limb is provided with two double verniers placed opposite to each other, reading to single minutes of arc; which is also the least count of the verniers of the latitude and declination arcs.

The instrument was examined, tested on the meridian at Salt Lake City, found correct, and was approved by the surveyor general for Utah, on April 1, 1905..

At the cor. of secs. 23, 24, 25, and 26, latitude  $40^{\circ} 17' 38''$  N., longitude  $110^{\circ} 35' 15''$  W., I set off  $40^{\circ} 18' N.$ , on the lat. arc;  $15^{\circ} 01' N.$ , on the decl. arc; and at 7 h 2 m a.m., l.m.t., I determine a meridian with the solar.

Note: For complete test of instrument see notes of Subdivision of T.3 S., R.6 W.

From the cor. of secs. 23, 24, 25, and 26 which is a sandstone, 5x15x4 ins., above ground, firmly set, from which

A pinon pine, 6 ins. dia., bears N.  $26^{\circ} 45' E.$ , 60 lks. dist. mkd. T 2 S R 6 W S 24 B T.

A pinon pine, 12 ins. dia., bears S.  $15^{\circ} 30' E.$ , 179 lks. dist. mkd. T 2 S R 6 W S 25 B T.

A pinon pine, 10 ins. dia., bears S.  $20^{\circ} W.$ , 132 lks. dist. mkd. T 2 S R 6 W S 26 B T.

A pinon pine, 9 ins. dia., bears N.  $57^{\circ} 15' W.$ , 19 lks. dist. mkd. T 2 S R 6 W S 23 B T.

Thence I run

N.  $89^{\circ} 56' E.$ , on a random line bet. secs. 24 and 25.

40.05 Fall 10 lks. S. of  $\frac{1}{2}$  sec. cor.

80.42 Intersect E. bdy. of Tps. 37 lks. S. of the cor. of secs. 19, 24, 25, and 30.

Thence I run

S.  $89^{\circ} 40' W.$ , on a true line bet. secs. 24 and 25.

40.21 Set a sandstone, 18x12x5 ins., 12 ins. in the ground, for  $\frac{1}{2}$  sec. cor. mkd.  $\frac{1}{2}$  on N. face; and raise a mound of stone, 2 ft. base,  $1\frac{1}{2}$  ft. high, N. of cor.

# FINAL OATHS OF DEPUTY SURVEYOR AND HIS ASSISTANTS.

## LIST OF NAMES.

A list of the names of the individuals employed by Andrew J. Stewart Jr and Alfred S. Booth, United States Deputy Surveyor, to assist in running, measuring, and marking the lines and corners described in the foregoing field notes of the survey of Sub-division Tps. S, Ro. 4, 5, & 6 W. and Tps. 2 S., Ro. 4, 5, & 6 W. of the Uintah Special Base and Meridian, Utah, wing the respective capacities in which they acted:

John Kienke ..... , Chainman.  
Archie Walton ..... , Chainman.  
George W. Ekins ..... , Moundman.  
Quimby Stewart ..... , Moundman.  
John P. Madsen ..... , Arman.  
Richard Skousen ..... , Arman.  
Wm Burridge ..... , Flagman.

## FINAL OATH OF ASSISTANTS.

We hereby certify that we assisted Andrew J. Stewart Jr. United States Deputy Surveyor, in surveying all those parts or portions of the Subdivision of Tps. 3 S., Ro. 4, 5, & 6 W. and Tps. 2 S., Ro. 4, 5, & 6 W. of the Uintah Special Base and Meridian, State of Utah, which are represented

the foregoing field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor

general for Utah

John Kienke ..... , Chainman.  
Archie Walton ..... , Chainman.  
George W. Ekins ..... , Moundman.  
Quimby Stewart ..... , Moundman.  
John P. Madsen ..... , Arman.  
Richard Skousen ..... , Arman.  
Wm Burridge ..... , Flagman.

Andrew J. Stewart Jr.  
U. S. Deputy Surveyor

FINAL OATH OF UNITED STATES DEPUTY SURVEYOR.

I, Andrew J. Stewart Jr., United States Deputy Surveyor, solemnly swear that, in pursuance of a contract received from Edward H. Anderson, United States Surveyor General for Utah, bearing date of 22d day of July, 1903, I have well, faithfully, and truly, in my proper person, and in strict conformity with the instructions furnished by the United States Surveyor General for Utah, the Manual of Surveying Instructions, and the laws of the United States, surveyed all those parts or portions of the subdivision of Tps. 3 S., Rs. 4, 5, and 6 West; and Tps. 2 S., Rs. 4, 5, and 6 West

of the Uintah Special Base meridian, in the State of Utah, which are represented in corrective books, 368970, foregoing field notes as having been surveyed by me, and under my direction; and I do further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the United States Surveyor General for Utah, and in the specific manner described in the field notes, and the foregoing are the original field notes of such survey.

*Andrew J. Stewart Jr.*  
United States Deputy Surveyor

Subscribed by said Andrew J. Stewart Jr., and sworn to before me this 14th day of August, 1905.

SEAL

*Edward H. Anderson*  
U.S. Surveyor Gen  
for &

APPROVAL.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

*Council Bluffs Aug 29, 1905*  
The foregoing field notes of the survey of the subdivision of Township, Section 24, Range 6 West of the Uintah Special Base & Meridian, Utah

executed by Andrew J. Stewart Jr., Alfred L. Booth, under his contract No. 270, dated July 29, 1903, having critically examined, and the necessary corrections and explanations made, the said field notes, and surveys they describe, are hereby approved.

*Edward H. Anderson*  
United States Surveyor Gdx

I certify that the foregoing transcript of the field notes of the above-described surveys in \_\_\_\_\_, has been correctly copied from the original notes on file in this office.

West boundary of T.1 S., R.6 W., ~~Sec. 13.~~

Chains Survey commenced November 8, 1903: and executed with  
 a W. and L.E. Gurley light mountain transit, No. 1, with  
 solar attachment. The horizontal limb is provided  
 with two double verniers placed opposite to each other,  
 reading to single minutes of arc; which is also the  
 least count of the latitude and declination arcs.  
 The instrument was examined, tested on the meridian  
 at Salt Lake City, found correct, and was approved by  
 the surveyor general for Utah, on August 10, 1903.  
 I examine the adjustments of the instrument and cor-  
 rect the level and collimation errors; then, to test  
 the solar apparatus by comparing its indications  
 resulting from solar observations made during p.m.  
 and a.m. hours, with a meridian established by Polaris  
 observation; I proceed as follows:  
 At the cor. Tps. 1 and 2 S., Rs. 6 and 7 W., Latitude  $40^{\circ} 21' 07''$  N., longitude  $110^{\circ} 38' 54''$  W., I set off  $40^{\circ} 21' N.$ ,  
 on the lat. arc;  $16^{\circ} 24' S.$ , on the decl. arc; and at 4 h 5  
 m p.m., l.m.t., determine a meridian with the solar,  
 and mark a point thereof on a stone firmly set in  
 the ground, 5.00 chs. N. of the cor.

November 8, 1903.

November 9, 1903. At 4 h 11.8 m a.m., l.m.t., I observe  
 Polaris at western elongation, in accordance with  
 the Manual, and mark a point in the line thus determin-  
 ed on a peg driven in the ground 5.00 chs. N. of  
 my station.

At 7 h 35 m a.m., l.m.t., I lay off the azimuth of  
 Polaris  $1^{\circ} 34.8'$  to the east, and mark the meridian  
 thus determined, by cutting a small groove in the  
 stone, already set 5.00 ch. N. of the cor.; this mark  
 falls 0.35 ins. east of the mark determined with the  
 solar.

DOOR

West boundary of T 1 S R 6 W -Continued

Chains	At 8 h 3 m a.m., l.m.t., I set off $40^{\circ} 21' N.$ , on the lat. arc; $16^{\circ} 35' S.$ , on the decl. arc; and mark the meridian determined with the solar, by a cross on the stone, already set 5.00 chs. N. of the cor.; this mark falls 0.30 ins. east of the meridian established by Polaris observation. The solar apparatus by p.m. and a.m. observations defines positions for meridians, respectively about $0' 18''$ west and $0' 16''$ east of the meridian established by Polaris observation; therefore I conclude that the adjustments of the instrument are satisfactory. The magnetic bearing of the meridian, at 8 h 30 m a.m. is N $16^{\circ} 44' W.$ ; the angle thus determined, gives the mag. decl. $16^{\circ} 44' E.$
	North, bet. secs. 31 and 36.
	Over mountainous land through heavy timber.
	Descend.
5.10	Bottom of canon, 150 ft. below Tp. cor., course S. $80^{\circ}$ E.
	Ascend abruptly.

GENERAL DESCRIPTION.

This township is high and steep in the western part and more rolling in the central and eastern part. It is well watered and well timbered. It should be subdivided.

*Andrew J. Stewart*  
U.S. Deputy Surveyor.

November 9, 1903.

# FINAL OATHS OF DEPUTY SURVEYOR AND HIS ASSISTANTS.

## LIST OF NAMES.

A list of the names of the individuals employed by \_\_\_\_\_  
\_\_\_\_\_, United States Deputy Surveyor, to assist in running, measuring, and  
marking the lines and corners described in the foregoing field notes of the survey of \_\_\_\_\_  
owing the respective capacities in which they acted:

For final affidavits see book Z<sup>10</sup> Tp. 3 S. R. J. Chainman.  
\_\_\_\_\_, Chainman.  
\_\_\_\_\_, Moundman.  
\_\_\_\_\_, Moundman.  
\_\_\_\_\_, Axman.  
\_\_\_\_\_, Axman.  
\_\_\_\_\_, Flagman.

## FINAL OATH OF ASSISTANTS.

We hereby certify that we assisted \_\_\_\_\_  
\_\_\_\_\_, United States Deputy Surveyor, in surveying all  
those parts or portions of the \_\_\_\_\_  
of the \_\_\_\_\_  
meridian, \_\_\_\_\_ of \_\_\_\_\_, which are represented  
the foregoing field notes as having been surveyed by him and under his direction; and that said survey  
is been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the  
corner monuments established, according to the instructions furnished by the United States Surveyor  
general for \_\_\_\_\_

For final affidavits see book Z<sup>10</sup> Tp. 3 S. R. J. Chainman.

. FINAL OATH OF UNITED STATES DEPUTY SURVEYOR.

I, \_\_\_\_\_, United States Deputy Surveyor, do solemnly swear that, in pursuance of a contract received from United States Surveyor General for \_\_\_\_\_, bearing date of the \_\_\_\_\_ day of \_\_\_\_\_, 189\_\_\_\_\_, I have well, faithfully, and truly, in my own proper person, and in strict conformity with the instructions furnished by the United States Surveyor General for \_\_\_\_\_, the Manual of Surveying Instructions, and the laws of the United States, surveyed all those parts or portions of  
*For final affidavit see book Z<sup>10</sup> Tp. 3 S. R. 7 W.*

\_\_\_\_\_ of the  
meridian, in the \_\_\_\_\_ of \_\_\_\_\_, which are represented in the foregoing field notes as having been surveyed by me, and under my direction; and I do further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the United States Surveyor General for \_\_\_\_\_ and in the specific manner described in the field notes, and that the foregoing are the original field notes of such survey; and should any fraud be detected, I will suffer the penalty of perjury under the provisions of an Act of Congress approved August 8, 1846.

*United States Deputy Surveyor.*

Subscribed by said \_\_\_\_\_, and sworn to before me }  
this \_\_\_\_\_ day of \_\_\_\_\_, 189 }

APPROVAL.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

Salt Lake City, Utah, August 22, 1891

The foregoing field notes of the survey of the West Boundary of Township No. 1 South of Range No. 6 West of the Uintah Special Base and Meridian, Utah

executed by Andrew J. Stewart Jr. and Alfred L. Booth  
their under contract No. 270, dated July 22, 1903, XXX, having been critically examined, and the necessary corrections and explanations made, the said field notes, and the surveys they describe, are hereby approved.

*Edward H. Anderson*  
United States Surveyor Gen.

I certify that the foregoing transcript of the field notes of the above-described surveys in \_\_\_\_\_, has been correctly copied from the original notes on file in this office.

*United States Surveyor Gen.*

## PRELIMINARY OATHS OF ASSISTANTS.

WE, \_\_\_\_\_ and \_\_\_\_\_

do solemnly swear that we will well and faithfully execute the duties of chainmen; that we will level the chain over even and uneven ground, and plumb the tally pins, either by sticking or dropping the same; that we will report the true distances to all notable objects, and the true lengths of all lines that we assist in measuring, to the best of our skill and ability, and in accordance with instructions given us, in the survey of

\_\_\_\_\_, Chainman.

\_\_\_\_\_, Chainman.

Subscribed and sworn to before me this \_\_\_\_\_  
day of \_\_\_\_\_, 189      }

WE, \_\_\_\_\_ and \_\_\_\_\_

do solemnly swear that we will well and truly perform the duties of moundmen in the establishment of corners, according to the instructions given us, to the best of our skill and ability, in the survey of

\_\_\_\_\_, Moundman.

\_\_\_\_\_, Moundman.

Subscribed and sworn to before me this \_\_\_\_\_  
day of \_\_\_\_\_, 189      }

WE, \_\_\_\_\_ and \_\_\_\_\_

do solemnly swear that we will well and truly perform the duties of axmen in the establishment of corners and other duties, according to instructions given us, to the best of our skill and ability, in the survey of

\_\_\_\_\_, Axman.

\_\_\_\_\_, Axman.

Subscribed and sworn to before me this \_\_\_\_\_  
day of \_\_\_\_\_, 189      }

I, \_\_\_\_\_, do solemnly swear that I will well and truly perform the duties of flagman according to instructions given me, to the best of my skill and ability, in the survey of \_\_\_\_\_

\_\_\_\_\_, Flagman.

Subscribed and sworn to before me this \_\_\_\_\_  
day of \_\_\_\_\_, 189      }

## Subdivision of T.1 S. R.6 W.-

Survey commenced November 10, 1903, and executed with a W.

& L.E.Gurley light mountain transit, No. 1, with solar attachment. The horizontal limb is provided with two double verniers placed opposite to each other, reading to single minutes of arc; which is also the least count of the latitude and declination arcs.

The instrument was examined, tested on the meridian at Salt Lake City, found correct, and was approved by the surveyor general for Utah, on August 10, 1903.

I examine the adjustments of the instrument, and correct the level and collimation errors; then, to test the solar apparatus by comparing its indications resulting from solar observations made during p.m. and a.m. hours, with a meridian determined with the Polaris observation, I proceed as follows:

At the cor. of secs. 1, 2, 35, and 36, on S. bdy. of Tp., heretofore described, latitude  $40^{\circ} 21' 07''$  N., longitude  $110^{\circ} 33' 15''$  W., I set off  $40^{\circ} 21'$  N., on the lat. arc;  $16^{\circ} 58' S.$ , on the decl. arc; and at 4 h 0 m p.m., l.m.t., determine with the solar a. meridian, and mark a point thereof on a stone set firmly in the ground, 5.00 chs. N. of the cor.

November 10, 1903

November 11, 1903: At 4 h 4 m a.m., l.m.t., I observe Polaris at western elongation, in accordance with the Manual, and mark a point in the line thus determined on a peg driven in the ground, 5.00 chs. N. of the cor. At 7 h 30 m a.m., l.m.t., I lay off the azimuth of Polaris  $1^{\circ} 34.8'$  to the east, and mark the meridian thus determined, by cutting a small groove in the stone already set 5.00 chs. North of the cor.; which falls .0.29 ins. east of the mark determined with the solar.

Subdivision of T.1 S., R.6 W.-Continued.

Chains	<p>At 8 h 2 m a.m., l.m.t., I set off <math>40^{\circ} 21' N.</math>, on the lat.arc; <math>17^{\circ} 10' S.</math>, on the decl.arc; and mark the meridian determined with the solar, by a cross.on the stone already set 5.00 chs.N.of the cor.; this mark falls 0.33 ins.east of the meridian established by Polaris observation.</p> <p>The solar apparatus by p.m.and a.m.observation, defines positions for meridians.respectively about <math>0'15''</math>west and <math>0'17''</math>east of the meridian established by the Polaris observation; therefore I conclude that the adjustments of the instrument are satisfactory.</p> <p>The magnetic bearing of the meridian, at 8 h 30 m a.m. is <math>N.16^{\circ} 43' W.</math>, the angle thus determined gives the mag.decl.<math>16^{\circ} 43' E.</math></p> <hr/> <p>From the cor.of secs.1,2,35, and 36 .</p> <p>I run.</p> <p><math>N.0^{\circ} 1' W.</math>, bet.secs.35 and 36 .</p> <p>Over mountainous land;through dense undergrowth and scattering timber.</p> <p>Ascend .</p> <p>4.00 Top of ridge,100 ft.above sec.cor.,bears E.and W.</p> <p>Descend over ledges.</p> <p>20.00 Bottom of canon,450 ft.below ridge, course SE.</p> <p>Ascend .</p> <p>35.00 Top of ridge, 500 ft.above canon,bears NW and SE.</p> <p>Leave ledges,bears NW and SE.</p> <p>Descend .</p> <p>40.00 Set a quartzite stone,<math>14 \times 8 \times 6</math> ins.,9 ins.in the ground for <math>\frac{1}{4}</math> sec.cor.,marked <math>\frac{1}{4}</math> on W.face;and raise a mound of stone,2 ft.base,<math>1\frac{1}{2}</math> ft.high,W.of cor.</p> <p>50.00 Bottom of hollow,300 ft.below ridge, course SE.</p> <p>Ascend .</p> <p>74.00 Top of ridge,220 ft.above hollow,bears NW and SE.</p>

7.60	Bottom of swale. 50 ft. below sec.cor., course NE. Dense willows in bottom of this hollow. Ascend .

10

Subdivision of T. 1 S. R. 6 W.-Continued

Chains

12.30 Enter heavy timber, bears E. and W.

16.10 Top of spur, 125 ft. above swale, bears E. and W.

Descend.

17.50 Foot of descent, 150 ft. below spur, bears E. and W.

Leave timber and enter dense undergrowth, bears E. and W.

Thence over-level bottom of Rock Creek Canon.

17.80 Right bank of Rock Creek, rocky bottom, rapid current, 1 $\frac{1}{2}$  ft. deep, course E.

18.90 Left bank of Rock Creek.

40.00 Set a quartzite stone, 16x10x8 ins., 11 ins. in the ground, for  $\frac{1}{2}$  sec. cor., marked  $\frac{1}{2}$  on W. face; and raise a mound of stone, 2 ft. base, 1 $\frac{1}{2}$  ft. high, W. of cor.

80.80 Leave canon bottom, bears E. and W.

Leave undergrowth and enter scattering cedar and pinon pine timber, bears E. and W.

Ascend.

93.14 Intersect Uintah Special Base, 16.02 chs. East of the Base cor. of secs. 35 and 36, which is a sandstone, 6x10x4 ins., above ground, firmly set, and marked and witnessed as described by Harvey D. Heist, U.S. Deputy Surveyor, under Contract No. 266.

Set a quartzite stone, 18x12x5 ins., 12 ins. in the ground, for closing cor. of secs. 1 and 2, marked with C.C. on S.; and 1 groove on E. and 5 grooves on W. faces; from which

A cedar, 10 ins. diam., bears S. 80° E., 35 lks.

dist., marked T 1 S R 6 W S 1 B T.

A cedar, 4 ins. diam., bears S. 70° W., 50 lks.

dist., marked T 1 S R 6 W S 2 B T.

Also raise a mound of stone, 2 ft. base, 1 $\frac{1}{2}$  ft. high, S. of cor.

Land, mountainous and level.

Soil, sandy loam and gravelly; 2nd and 3rd rate.

Subdivision of T 1 S R 6 W -Continued.

Chains    Timber, cedar and pinon pine.  
Undergrowth, sage brush, rabbit brush, and willows.  
Good grass for grazing.  
Mountainous or heavily timbered land, or land covered  
with dense undergrowth, 93.14 chs.

November 12, 1903.

November 13, 1903: At 8 h 4 m a.m., l.m.t., I set off  
 $40^{\circ} 21' N.$ , on the dat.arc;  $17^{\circ} 41' S.$ , on the decl.arc;  
and determine a meridian, with the solar, at the cor.  
of secs. 2, 3, 34, and 35, on S.bdy.of Tp., heretofore  
described.

Thence I run

$N.6^{\circ} 2' W.$ , bet. secs. 34 and 35.

Over mountainous land; through heavy timber and scattering undergrowth.

Ascend abruptly over a series of ledges from 10 ft. to  
100 ft. high.

10.25 Top of ridge, 300 ft. above sec.cor., bears  $N.85^{\circ} W.$  and  
 $S.85^{\circ} E.$  Leave ledges, bears  $N.85^{\circ} W.$  and  $S.85^{\circ} E.$

Descend.

23.50 Bottom of hollow, 200 ft. below ridge, course  $S.80^{\circ} E.$   
Ascend. Leave timber, bears  $N.80^{\circ} W.$  and  $S.80^{\circ} E.$

40.00 Set a sandstone, 14x10x6 ins., 9 ins. in the ground,  
for  $\frac{1}{2}$  sec.cor., marked  $\frac{1}{2}$  on W.face; and raise a mound  
of stone, 2 ft. base,  $1\frac{1}{2}$  ft. high, W.of cor.

47.00 Top of ridge, 100 ft. above hollow, bears  $N.80^{\circ} W.$  and  
 $S.80^{\circ} E.$

Descend.

57.25 Bottom of hollow, 100 ft. below ridge, course  $S.85^{\circ} E.$   
Enter scattering timber, bears E. and W.  
Ascend.

Subdivision of T 1 S .R 6. W -Continued

Chains

80.00	Set a quartzite stone, 18x12x8 ins., 12 ins. in the ground, for cor.of secs.15,16,21, and 22, marked 1 S on NE; and 6 W on SE faces; with 3 notches on S., and E.edges; and raise a mound of stone, 2 ft. base, $1\frac{1}{2}$ ft. high, W.of cor. Land, mountainous . Soil, sandy loam and gravelly; 2nd and 3rd rate. Timber, cedar and pinon pine. Undergrowth, sage brush. Good grass for grazing. Mountainous or heavily timbered land, or land covered with dense undergrowth, 80.00 chs. November 15, 1903 :At this cor.latitude $40^{\circ} 23' 43''$ N., longitude $110^{\circ} 35' 30''$ W., I set off $40^{\circ} 24'$ N., on the lat.arc; $18^{\circ} 18'$ S., on the decl.arc; and at 4 h 3 m p. m., l.m.t., I determine a meridian, with the solar, and mark a point thereof on a stone firmly set,

Subdivision of T 1.S .R 6 W -Continued.

Chains in the ground, 5.00 chs.N.of the cor.

November 15, 1903.

November 16, 1903: At 3 h 44 m a.m., l.m.t., I observe Polaris at western elongation, in accordance with the Manual, and mark a point in the line thus determined on a peg driven in the ground, 5.00 chs. N.of the cor.

At 7 h 30 m a.m., l.m.t., I lay off the azimuth of Polaris  $1^{\circ} 34.8'$  to the east, and mark the meridian thus determined, by cutting a small groove in the stone already set 5.00 chs. Nof the cor.; this mark falls 0.37 ins. east of the mark determined with the solar.

At 8 h 3 m a.m., l.m.t., I set off  $40^{\circ} 24' N.$ , on the lat.arc;  $18^{\circ} 28' S.$ , on the decl.arc; and mark the meridian, determined with the solar, by a cross on the stone already set 5.00 chs.N.of the cor.; this mark falls 0.25 ins.east of the meridian as established by Polaris observation.

The solar apparatus by p. m and a.m. observations, defines positions for meridians, respectively about  $0' 19''$  west and  $0' 13''$  east of the meridian established by Polaris observation; therefore I conclude that the adjustments of the instrument are satisfactory.

The magnetic bearing of the meridian , at 8 h 20 m a.m., is  $N.16^{\circ} 44' W.$ , the angle thus determined gives the mag.decl.  $16^{\circ} 44' E.$

              Mountainous land, or land covered with dense under-growth, 93.82 chs.

11 a.m. November 21, 1903.

---

GENERAL DESCRIPTION.

This township is all mountainous. It is very steep and ledgy east of Rock Creek; rolling in the central part; and high in the western part. The soil east of Rock Creek is generally rocky; 4th rate; but the soil of the remainder of the township is principally sandy and gravelly loam; 2nd rate.

The eastern part of the township is well timbered with cedar and pinon pine; the central part has only scattering cedar and pinon pine timber, but has a good deal of sage brush; while the western part of the township is covered with a heavy growth of pine and aspen timber and a dense growth of aspen saplings, service berry, and deer brush.

The township is well watered in the eastern part by Rock Creek, a stream of good water, having an average width of 75 lks. and an average depth of 1 $\frac{1}{2}$  ft.

There is no water at all in the western part of the township.

There are no settlers in the township.

There is no mineral in the township.

The entire township is covered with an abundant growth of rich and nutritious grasses, and is therefore well adapted for grazing purposes.

*Andrew Stewart*  
U.S. Deputy Surveyor.

# FINAL OATHS OF DEPUTY SURVEYOR AND HIS ASSISTANTS.

## LIST OF NAMES.

A list of the names of the individuals employed by .....

....., United States Deputy Surveyor, to assist in running, measuring, and marking the lines and corners described in the foregoing field notes of the survey of .....

APPROVAL.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

Salt Lake City, Utah, August 22, 1904.

The foregoing field notes of the survey of the Subdivisional lines of Township No. 1 South, Range No. 6 West of the Uintah Special Base and Meridian, Utah,

executed by Andrew J. Stewart Jr. and Alfred L. Booth,

their \_\_\_\_\_ under contract No. 270, dated July 22, 1903, XXX, having been critically examined, and the necessary corrections and explanations made, the said field notes, and the surveys they describe, are hereby approved.

*Edward H. Anderson*  
United States Surveyor General

I certify that the foregoing transcript of the field notes of the above-described surveys in \_\_\_\_\_, has been correctly copied from the original notes on file in this office.

United States Surveyor General.
